

**ONE OCEAN EXPEDITIONS
WORLDWIDE CRUISE PORTFOLIO**

"We proudly integrate our Canadian values into our daily operations, from our welcoming and hospitable guest service to our respect for nature and the local communities we visit. Our commitment towards scientific research is significant, as is our ability to provide in-depth educational opportunities for our guests. We proudly support and contribute towards research work, encouraging increased knowledge of ocean literacy and the importance of nurturing our oceans and the life they sustain. The expertise and the collective knowledge of our team truly sets us apart."

Andrew Prossin, Managing Director, One Ocean Expeditions

THERE IS ONLY ONE OCEAN

SMALL SHIP EXPEDITION CRUISING

One Ocean Expeditions, a privately-owned Canadian company, and the industry leader in expedition cruising, provides extraordinary marine travel experiences in remote regions of the world. With a range of innovative itineraries in Antarctica, the Canadian Arctic, Svalbard, Canada's East Coast, South and Central America and the Islands of the North Atlantic, a voyage in these destinations is truly a life changing experience. We pride ourselves on creating outstanding voyages and unique adventures through a deep understanding of the locations we visit, offering insight, understanding and choice every step of the way.

Offering exceptional, responsible, educational and interest led travel, our specially designed programming and itineraries allow guests to choose how their expedition unfolds. The opportunity to participate in small, specialized group excursions, enjoy personalized service onboard and the chance to travel alongside expert guides and educators, will create memories you will never forget. With a staff to guest ratio of 1:4 and a maximum passenger number onboard ranging from 92-146, customized options are delivered in small groups.

One Ocean Expeditions empowers guests to safely experience the world's most remote places, whilst remaining committed to environmental and social responsibility in some of the most unspoiled and ecologically sensitive places on Earth. Through unique, tailored experiences, guests become ambassadors for the destinations they visit, encouraging appreciation and respect for fragile ecosystems and remote cultures.

With a combined total of 185 years experience in the expedition cruise industry, more than 2,500 trips under our belts and three world-class, ice-strengthened expedition vessels; you are in very capable hands.

THE ONE OCEAN DIFFERENCE

EXCEPTIONAL GUEST SERVICE

One Ocean Expeditions' exclusively designed Adventure Concierge program provides unparalleled guest services, tailored to meet the needs of each discerning passenger. Our staff to guest ratio of 1:4 allows us to create small groups based on interest, tailored excursions and activities unique to each traveller's goal.

A TEAM LIKE NO OTHER

World-renowned photographers and experts in leading positions from museums, research stations and universities present the One Ocean Expeditions educational program on each voyage. Paired with our highly experienced expedition and hospitality professionals, we provide an extraordinary marine experience.

SUSTAINABLE & RESPONSIBLE

By implementing the most detailed and comprehensive visiting practices around the world, One Ocean Expeditions helps to protect the sensitive ecosystems and remote communities we visit. With sustainable travel always in mind, guests experience these remote environments in their most pristine and natural state. Itineraries are designed to maximize integration into the communities we visit, including the use of local guides and promoting understanding of local cultural heritage.

IN CAPABLE HANDS

Effusive in our passion to travel and unwavering in our commitment to safety, we use well-appointed vessels with a high ice-class rating and stabilization, enabling you to explore remote and inaccessible destinations. Whether it is innovation, service, organization, safety or environmental protection, guests can trust the One Ocean Expeditions team.

COMMITTED TO OCEAN HEALTH

Partnering with and supporting nationally accredited scientific organizations, One Ocean Expeditions creates opportunities for science in remote, inaccessible parts of the world whilst offering guests the unique opportunity to learn from and interact with scientists and researchers onboard. Working with carefully selected science partners and forging new relationships along the way, we continue to pursue increased education in ocean literacy and the preservation of ocean health for generations to come.

THERE IS ONLY ONE OCEAN

IMAGINE THE POSSIBILITIES

THE OPPORTUNITIES ARE ENDLESS

Our team have been at the forefront of innovation from the beginning. Understanding the foundations of small group travel is at the core of our programming development and is practiced on every voyage, allowing groups of 10-16 to focus on specialized interests. Through building unique voyage itineraries, extensive programming, and high value options serviced by a keen understanding of exceptional client services, our guests choose their own adventure, and how it unfolds. With a focus on tailored experiences, we are confident each and every traveller will come to see the world in a whole new way. As a leader in small-ship expedition cruising, One Ocean Expeditions provides a wide range of activities built to encompass and showcase the destinations we explore. The expansion of our small vessel fleet, where all ships carry no more than 146 guests, provides increased capacity continuing to meet and exceed the demands of our discerning guests.

Imagine, Explore and Discover the difference One Ocean Expeditions offers in a world-class ocean based program, providing options for the young at heart. Choose from our 'Expedition' portfolio encompassing immersive experiences ranging from sea kayaking, camping on the ice, extensive hiking and walking options, photography, and wildlife appreciation – at the top and the bottom of the world. Our 'Active Discovery' program offered in warmer climates stays true to the 'choose your own adventure' style, providing different options each and every day, all included in the voyage fare. For those keen to enhance their knowledge, or be on the breaking cusp of discovery, look for our voyages of 'Exploration' where we endeavour to discover the undiscovered. Join us; the world really is one ocean.

EXPEDITION

Foundational Programming

The core of our unique itineraries, the Expedition program is the backbone of our voyages offered in Antarctica, Chile, the High Arctic and the Islands of the North Atlantic. Sailing on dedicated ice-class vessels, known for their stability and exceptional indoor and outdoor passenger areas, our expedition programming creates an environment of exploration based on interest, options and choice. As world leaders in polar expedition cruising and the exploration of remote environments, our team provides a wealth of knowledge and experience. We were the first to bring overnight camping, sea kayaking and hiking to the polar regions in a safe, inclusive and fun environment. New to this offering is a unique opportunity to join a crossing of South Georgia, led by IFMGA guides on our select 'South Georgia In-Depth' voyages. Our expedition programming gives you an unparalleled experience in the beauty of the regions we travel, whilst giving you the options to explore it your way.

FEATURED ACTIVITIES

Educational Programming | Wildlife Viewing | Zodiac Cruising | Photography | Hiking | Sea Kayaking | Camping | Ski Touring | Snowshoeing

Activities vary by voyage and are weather dependent.

FEATURED ITINERARIES

Antarctica – Off The Beaten Track | Antarctic Peninsula Adventure | Antarctica In-Depth | Quest for the Antarctic Circle | South Georgia In-Depth | Falkland Islands, South Georgia & Antarctica | Journey Below the Antarctic Circle | Ultimate Antarctica | Antarctica Deep South | Chilean Fjord Adventure | Baffin Island – Jewel of the High Arctic | Baffin Island & Greenland Explorer | High Arctic Explorer | Pathways to Franklin | Classic Northwest Passage | Scotland, Faroe Islands & Iceland

'The Young Explorers Program', developed with **The New Zealand Antarctic Heritage Trust**, resulted in the recruitment of youth who demonstrated a commitment to their community, furthering their own education and broadcasting the importance of outdoor initiatives in the wilderness. This culminated with the 2017 Antarctic Peninsula and Mount Scott Expedition, the first of its kind and the start of a biannual program onboard. Creating life changing opportunities for youth to experience these remote and sensitive regions in the footsteps of historical explorers connects the next generation with past polar history, and what is to come.

By creating voyages that encompass the polar regions, exclusively operating multiple ice-class and stabilized vessels, One Ocean Expeditions recognizes both the importance and relevance that the polar regions play in the creation of a new knowledge base. This knowledge base is inherently important to showcase the critical story held within these frozen waters and coastlines and vital to build through experiential travel. We are proud to showcase youth initiatives focused on expanding the quest for knowledge through educational and experiential programming.

ACTIVE DISCOVERY

Choose Your Own Adventure

The Active Discovery program is honed towards the forgiving nature of warm weather climates and is ideal for guests to participate in small, special-interest groups of 6-16. Explore and traverse these stunning environments with an extraordinary program, all included in the voyage fare. With options to choose your activities on a daily basis, each excursion will be different. Expressions of interest are taken at the time of booking, and guests do not have to commit exclusively to one activity for the duration of the voyage. Discover an extensive range of culturally diverse regions, from Canada's Maritime East Coast to Central America, offering the perfect blend of culture, music, wildlife, and photography. Choose from a bicycle journey, a water-based excursion by stand-up paddle board, health and wellness on board, sea kayak or Zodiac, or possibly a stop at the beach to stroll the tidal pools. A highly sought-after addition to this compilation of select itineraries are our new golf voyages, launched in both Canada's East Coast and Scotland & Ireland.

FEATURED ACTIVITIES

Educational Programming | Wildlife Viewing | Zodiac Cruising | Photography | Hiking | Sea Kayaking | Stand-Up Paddle Boarding | Cycling | Snorkeling | Health & Wellness Programming

Activities vary by voyage and are weather dependent.

FEATURED ITINERARIES

Canada's East Coast – Fins & Fiddles | Canada's East Coast – Golf Expedition | Central America Adventure | Central America Explorer | Scotland & Ireland – Golf Expedition

Continue your daily active regime onboard, utilizing our **health and wellness program**. Enjoy our well-stocked gym with space to work out at your own pace. Prepare for the day ahead with a nutritious drink from our smoothie bar, made from fruits selected and freshly prepared each morning before breakfast. Re-energize and stretch out those tired muscles in a guided yoga class. Relax at the end of an active day in our sauna/steam room and select your favourite meals from a variety of healthy menu options onboard.

RCGS Resolute, One Ocean Expeditions' newest vessel, is ideally suited to explore warmer waters, due to its outdoor deck space and many exceptional outdoor panoramic viewing areas. Offering an array of premiere amenities while upholding our unique, small-group programming, RCGS Resolute will take you on an exploration of remote coastlines, white sand beaches and hidden coves.

EXPLORATION

Discover the Undiscovered

At the heart of One Ocean Expeditions lies the desire to explore and learn. As leaders in the exploration of the world's most remote regions, we have an extensive and long-standing commitment to providing a platform for those helping to understand and preserve these unique destinations. We are proud to integrate educators and researchers aligned with accredited scientific programs, university field studies, and other missions to 'discover the undiscovered'.

Our Exploration programming encompasses a range of established itineraries focused on expanding knowledge. You may choose to travel alongside scientists counting penguins, or prefer to share a Zodiac with marine biologists researching the behaviour of marine mammals. Budding historians can experience archaeological sites of interest with our onboard historians. Whichever subject matter sparks your interest, you will experience a more in-depth exploration of these incredible regions. Travelling alongside scientists, pioneers and experts in their fields, exploring the world's most remote regions will be a transformative experience.

FEATURED ACTIVITIES

Activities vary by voyage and are weather dependent.

FEATURED ITINERARIES

Classic Northwest Passage | South Baffin Explorer – Art, Culture & Wildlife | Falkland Islands, South Georgia & Antarctica – Mega Colonies
| Marine Mammals of Antarctica | South Georgia In-depth | Journey Below the Antarctic Circle

In August 2018, for the second time in Canadian history, One Ocean Expeditions, in collaboration with **The Royal Canadian Geographical Society (RCGS)**, contributed to the discovery of a historic Arctic vessel, most recently the **Nova Zembla**, a Scottish whaling ship. This search transpired after fellows of the RCGS, Dr. Matthew Ayre and Dr. Michael Moloney, from the Arctic Institute of North America, University of Calgary, conducted a notable amount of archival research and detailed fieldwork. Evidence of the wreck was discovered near Buchan Gulf whilst traveling onboard our Classic Northwest Passage and Greenland voyage on Akademik Sergey Vavilov. This discovery will help shed light on the historical and political complexity of the whaling industry in the Arctic.

EXPLORE

THE WORLD'S FURTHEST REACHES

EXPERIENCE SMALL GROUP TRAVEL

One Ocean Expeditions creates immersive and personalized expeditions in ecologically sensitive and inspiring destinations. We aim to create ambassadors for these regions by offering deep insights into the environments and communities we travel to. With sustainable travel always in mind, you will experience these destinations in their most pristine and natural state, through small, special-interest groups onboard and onshore. Our expert guides take us to some of the best wildlife hotspots in the world, where we experience nature first-hand. Connect with local communities to gain a deeper understanding and appreciation for their way of life. One Ocean Expeditions offers a truly unique and new way to travel, empowering guests to imagine, explore and discover.

IMAGINE. EXPLORE. DISCOVER. CANADA'S EAST COAST A VIBRANT MARITIME CULTURE

REMOTE PORTS. LIVELY MUSIC. INCREDIBLE WILDLIFE.

Canada's East Coast is the summer playground for many travellers worldwide. Rich in folklore, culture, hiking and wildlife, One Ocean Expeditions voyages offer incredible experiences for all ages and interests. Along the shores of the Canadian Atlantic East Coast, we are welcomed by the familiarity of days gone by in each community we visit. Within these colourful and vibrant Atlantic provinces, we experience wildlife in its natural habitat, as we transition away from life as we know it. The extensive grouping of remote off-shore islands and provinces included in this program range from Louisbourg, Nova Scotia, all the way up to Iqaluit, Nunavut. Undoubtedly best explored by an expedition cruise, your spirit for adventure leads the way and opportunities are maximized each and every day.

CANADA'S EAST COAST

★ CANADA'S EAST COAST – FINS & FIDDLES ●

Explore Canada's East Coast including Percé, Quebec, UNESCO World Heritage Site Gros Morne National Park and Newfoundland & Labrador. Encounter the wild horses of Sable Island and enjoy the quaint taste of France in St. Pierre & Miquelon. Eastern Canada is famous for a rich and diverse culture, found in small fishing communities and remote ports. The region also offers a staggering abundance of wildlife. All optional activities are included in the voyage fare.

LABRADOR & TORNGAT MOUNTAINS EXPLORER ●

Transition from the East Coast provinces of Canada to the heart of the Arctic. Visit remote Moravian mission outposts, isolated fishing ports, Basque settlements and the French-built Fortress of Louisbourg. Enjoy a hike to the world heritage Tablelands National Park. Torngat Mountains National Park offers incredible photographic opportunities as well as a range of wildlife and is one of the only places in Canada where it is possible to see a black bear and polar bear in the same day! All optional activities are included in the voyage fare.

EAST COAST GOLF EXPEDITION – FIDDLES & STICKS ●

Play at some of the finest golf courses in Canada, several of which feature in the 'Top 100' golf courses in the world. Each day our expedition plan unfolds onto a new course, where clubs and lunches are transferred ashore via Zodiac. Confirmed course locations include Cabot Links, Cabot Cliffs, Crowbush, and Highland Links; some of the best courses in North America. Golfers and non-golfers alike can enjoy a host of other optional activities, from cycling to whisky tasting, all included in the voyage fare.

All itineraries are subject to change due to the expeditionary nature of our voyages and possible weather or ice conditions.

One Ocean Expeditions is proud to be a part of the **Canadian Signature Experience** collection as designated by Destination Canada. These innovative travel experiences are designed to encourage visitors to keep exploring Canada and are offered by Canadian organizations to provide the best experiences Canada has to offer. It is an honour that two of our unique itineraries have been carefully selected to be included under this prestigious designation: Canada's East Coast – Fins & Fiddles, and Baffin Island – 'Jewel of the High Arctic'.

THE ARCTIC

DISCOVER THE NORTH

WHERE NATURE RULES & CULTURE CONNECTS

The Arctic carries great exploration and historical interest worldwide. Inuit communities on the east coast of Baffin Island and the west coast of Greenland offer incredible insight into life above the Arctic Circle. Visiting remote northern communities that welcome us into their way of life offers an interesting perspective into northern customs and lifestyle. Zodiac cruising at the base of glacial walls and bird cliffs in the Canadian Arctic is a humbling experience. Spitsbergen in the Norwegian High Arctic has the highest concentration of wildlife in the Svalbard archipelago and photographic opportunities of polar bears are common. By creating voyages that offer a range of options to experience culture, history and wildlife, there has never been a better way to immerse yourself in this fascinating place. The sight of your first polar bear, walrus, narwhal, beluga, caribou or muskox elicits a feeling of awe in even the most seasoned traveller. To explore these incredibly remote areas, we operate chartered aircraft specially equipped for gravel runways and northern access. Enjoy customized itineraries in remote and often untouched sections of the Arctic, explored in small groups and led by expert guides.

🍁 BAFFIN ISLAND – JEWEL OF THE HIGH ARCTIC ●

Baffin Island is one of the last great wilderness regions on the planet and the focus of this outstanding expedition. We are proud that this incredible voyage has been carefully selected by Destination Canada as one of their designated ‘Canadian Signature Experiences’. From Iqaluit we explore the east coast of Baffin Island, discovering deep fjords, soaring mountains, immense glacial systems, remote Inuit communities and incredible wildlife. This is small ship expedition cruising at its best.

SOUTH BAFFIN EXPLORER – ART, CULTURE & WILDLIFE ●

Travel to the south of Baffin Island and explore the home of polar bears, indigenous cultures and communities on this exceptional voyage focused on art. This expedition offers a chance to explore the spectacular land and seascapes of the Canadian Arctic. Observe an outstanding variety of marine birdlife and sea mammals and take time to visit indigenous art galleries that showcase the talents of these remote peoples, whose rich artistic output is a major focus of this highly unique and engaging expedition.

HIGH ARCTIC EXPLORER ●

This stunning journey is the perfect combination of wildlife, history and scenery. The long hours of daylight give us maximum time to explore known wildlife hotspots, including one of the largest migratory bird sanctuaries in the world – Prince Leopold Island. Landing areas include Grise Fjord, Craig Harbour, Dundas Harbour and Beechey Island, all located above 64th parallel. Along the ice floe edge, we encounter beluga and bowhead whales and hope to spot the mythical narwhal. Sightings of polar bears can be expected at numerous locations throughout the voyage.

BAFFIN ISLAND & GREENLAND EXPLORER ●

This itinerary explores wildlife, culture and the spectacular scenery of Western Greenland and the Canadian Arctic. From Iqaluit on the east coast of Baffin Island to Kangerlussuaq on the west coast of Greenland, this adventure sails through a spectacular wilderness of glaciers, mountains, fjords and breathtaking icebergs. Along the way, Inuit settlements of both Greenland and Canada will open eyes to the rich and unique cultures that have survived in this harsh landscape for centuries.

PATHWAYS TO FRANKLIN ●

The principal focus of this expedition is the history of Arctic exploration and the early quest for the Northwest Passage. The story of Sir John Franklin’s expedition from the mid 18th century and the enduring mystery of their fate has gripped the imagination for more than 170 years. A new chapter in this tale was written in September 2014 when the Victoria Strait Expedition, a joint government/private endeavour, of which One Ocean Expeditions was a proud partner, was successful in the find of Sir John Franklin’s HMS Erebus. We navigate through these waters and wonder about the fate of these early Arctic explorers.

CLASSIC NORTHWEST PASSAGE ●

The Northwest Passage is one of the world’s most iconic maritime routes of discovery. This voyage covers the full spectrum of Arctic scenery, culture, history and wildlife – making it a much-loved classic. We follow in the footsteps of the early Arctic explorers such as Franklin, Amundsen and Larsen, exploring the vast archipelago of islands and channels that create Canada’s High Arctic region. This is the home of the polar bear, barren land grizzly, muskox, caribou, walrus, beluga and possibly even the narwhal. **There are two variations of this itinerary, one including the east coast of Baffin Island and one including a crossing of Baffin Bay and West Greenland.**

All itineraries are subject to change due to the expeditionary nature of our voyages and possible weather or ice conditions.

SPITSBERGEN – THE NORWEGIAN HIGH ARCTIC

SPITSBERGEN EXPLORER ●

Spitsbergen and the Svalbard archipelago offer tremendous wildlife and birding experiences. The islands are the northernmost inhabited places on the planet and would be permanently locked in ice if not for the moderating influence of the Atlantic Gulf Stream. Our series of voyages focus on the western quarter of the island group. This area has a high concentration of wildlife, including polar bears and places of historic and scenic interest in the archipelago. The unique ice capabilities of our ships allow us to venture to the edge of the permanent Arctic pack ice where few other vessels can, at around 80 degrees north latitude.

SPITSBERGEN ENCOUNTER ●

On this voyage we focus our attention on the upper northwest islands of Spitsbergen — the largest island in the Svalbard archipelago. Sailing along the coast we visit numerous bird colonies and enjoy regular encounters with bearded and ringed seals. Days are busy with shore excursions to places of historic interest and wildlife colonies, whilst soaking up the stunning Arctic landscapes. Hikes on shore are another highlight, along with regular cruising in the Zodiacs. Our voyage continues to remote Phippsøya, where we have our best chance to see polar bears.

SPITSBERGEN ENCOUNTER – PHOTOGRAPHY SYMPOSIUM ●

This brilliant voyage offers the same itinerary as the Spitsbergen Encounter, however, unique to this departure is a custom program designed for photography enthusiasts. This program runs parallel to our daily off-ship excursions and activities. The photography team provides practical guidance, deep insight and special excursions which will include early mornings and late evenings chasing the Arctic light. The program is open to photographers of all abilities and is included in the voyage fare.

One Ocean Expeditions' **Photography Symposium** voyages are every photographers dream – immense glaciers, colossal icebergs, outstanding wildlife encounters and the ability to chase the natural light provide optimal opportunities for budding photographers of all abilities.

In addition to our usual onboard staff, these departures offer a broad spectrum of professional photography guides and special guests. Experts in their field offer fantastic insight and advice in the chosen destination. The programs include daily pre-excursion meetings, dedicated photographic Zodiacs, specialty landings and excursions based on light, interactive workshops and group or personal reviews. Our photographers focus on engagement, with a hands-on approach and have a great deal of experience running photography workshops.

The workshops are led in an encouraging and fun environment, with technical and creative support. A group of five professional photographers will guide you beyond obvious images into the realm of unique and compelling story telling.

All itineraries are subject to change due to the expeditionary nature of our voyages and possible weather or ice conditions.

ANTARCTICA

AN INFINITE LAND OF DISCOVERY

THE GREATEST WILDERNESS ON EARTH

For many, a voyage to Antarctica is truly the trip of a lifetime. Imagine towering glaciers, vast snow-covered landscapes, immense icebergs and amazing wildlife encounters. You choose how your Antarctic experience unfolds by breaking into small, special-interest groups and selecting the activities that suit you. Whether you want to watch penguins, sea kayak with whales, photograph icebergs from Zodiacs, camp onshore overnight or hike a snowy peak, our attentive staff will help to tailor your expedition cruise around you. Antarctic itinerary options include voyages to the South Shetland Islands, the western and northern sections of the Antarctic Peninsula and the stunning Weddell Sea region, located on the eastern side of the Antarctic Peninsula, and a crossing of the Antarctic Circle. Visit several locations in the Falkland Islands archipelago, home to nesting albatross and the colourful king penguin. Let South Georgia impress you with its high wildlife populations and polar history sites, following in the footsteps of Sir Ernest Shackleton. Stand in the presence of great explorers of a bygone, heroic age as we visit the tiny whalers' cemetery of Grytviken. Learn about Frank Wild and Henry Worsley, explorers whose wishes to be laid to rest next to Shackleton were made possible by One Ocean Expeditions.

ANTARCTICA

ANTARCTICA – OFF THE BEATEN TRACK ●

The first trip of the season is met with pristine conditions following the heavy snowfall of the Antarctic winter. This comprehensive and diverse voyage offers Zodiac cruising, onshore walks and hikes, visits to wildlife colonies, exploration of historic sites and excursions to discover the beautiful bays and landing sites found along the Antarctic Peninsula. This itinerary combines untouched Antarctica with plenty of options for the more adventurous. Guests can choose to participate in expedition snowshoeing, sea kayaking with an overnight camping option, expedition field photography and, only on this voyage, ski touring.

ANTARCTIC PENINSULA ADVENTURE ●

This classic itinerary is a favourite for whale watching, seabird viewing, visiting penguin colonies and experiencing Zodiac excursions in Antarctica. Our commitment to deliver a variety of excursions, encompassing different activities, including the option to camp onshore, allows guests to choose how their expedition unfolds. Discover the key excursion areas of the peninsula showcasing penguins, seals, whales, seabirds and epic ice. This itinerary can be accessed by sailing the Drake Passage or by flight.

ANTARCTICA IN-DEPTH ●

Maximise your time in Antarctica on this unique expedition cruise. The snow is pristine and penguin rookeries are busy as young penguin chicks emerge. This voyage encompasses two additional days of exploration in Antarctica without adding to the total length of the voyage. We achieve this by flying, saving two days on the return sea crossing. Those two days 'saved' are spent exploring this incredible destination. This equals more time on shore, more time in the Zodiacs and more time spent in the company of our expert guides. There are several versions of this itinerary.

CHRISTMAS IN ANTARCTICA ●

December provides maximum hours of daylight as we experience Antarctica during the summer solstice. We visit many of the classic locations along the Antarctic Peninsula providing a great variety of exciting activities both on and off the ship. Traditionally, this departure has been very popular with families as it falls over the holiday season. Join us for the most wonderful 'white Christmas' you could ever imagine, surrounded by icebergs, crystal clear waters and astonishing wildlife. There are several versions of this itinerary, including a crossing of the Weddell Sea.

QUEST FOR THE ANTARCTIC CIRCLE ●

This popular voyage allows us to reach our objective of the Antarctic Circle in less time with the use of flights, crossing the Drake Passage in just over two hours instead of two days. For a relatively short voyage, this trip packs a serious punch, offering fantastic diversity of scenery, wildlife and historic and scientific interest. This itinerary is filled with excursions on the Zodiacs and onshore. A hotel night at the end of the voyage in Punta Arenas, Chile is included. There are several versions of this itinerary.

Maximise your time in Antarctica on select voyages by flying from Punta Arenas or Santiago, Chile to the gateways of Port Stanley in the Falkland Islands or King George Island in Antarctica, saving several days of ocean crossing. We add these saved days to the expedition so you can spend even more time in destination.

All itineraries are subject to change due to the expeditionary nature of our voyages and possible weather or ice conditions.

SOUTH GEORGIA IN-DEPTH ●

This popular voyage offers the best South Georgia has to offer and only on this trip will you have the privilege of spending more consecutive days exploring the island. Here you will witness what has often been described as the 'greatest wildlife show on Earth'. The story of Sir Ernest Shackleton and the Endurance expedition from over a century ago is forever connected to the island. Today, the place teems with wildlife on a jaw-dropping scale. King penguin rookeries are home to more than 100,000 birds, seals cover the beaches and nesting seabirds fill the skies.

SOUTH GEORGIA IN-DEPTH – PHOTOGRAPHY SYMPOSIUM ●

This fantastic voyage offers the same itinerary as South Georgia In-depth, however, unique to this departure is a custom program designed for photography enthusiasts. This program runs parallel to our daily off-ship excursions and activities. The photography team of five provides practical guidance, deep insight and special excursions which will include early mornings and late evenings chasing the Antarctic light. The program is open to photographers of all abilities and is included in the voyage fare.

FALKLAND ISLANDS, SOUTH GEORGIA & ANTARCTICA ●●

This is our most far-reaching polar journey and includes visits to three different regions. The sub-Antarctic Falkland Islands and the island of South Georgia are home to an abundance of unique wildlife. There are penguin rookeries with more than 100,000 nesting birds and the beaches are covered with fur seals and elephant seals. We frequently encounter whales including humpback, minke and orca. Seabirds, including many of the albatross species, call these islands home. Both regions offer fascinating history and stunning scenery. To the south lies Antarctica, the frozen continent and a highlight of this remarkable voyage. There are several variations of this itinerary.

FALKLANDS ISLANDS, SOUTH GEORGIA & ANTARCTICA – MEGA COLONIES ●

This new itinerary explores the recently discovered penguin mega colonies in the Falkland Islands, South Georgia and Antarctica. Similar to our classic far-reaching voyage, on this itinerary we prioritize the region's largest penguin colonies, including St Andrew's Bay and Salisbury Plain on South Georgia, Paulet Island and Bailey Head and also the Danger Islands, to experience the mega-colony of Adelie penguins.

In 2011, One Ocean Expeditions transported a helicopter onboard our vessel to assist the **South Georgia Heritage Trust**, a charity dedicated to the conservation of natural habitats, with a rodent eradication project on South Georgia. The island faced a rodent infestation after the vermin were brought there by whalers in the late 18th century. The program was a 100% success and saved many species of bird from extinction when the island was declared rodent free.

In addition to special projects, One Ocean Expeditions is a proud partner of **Oceanites**, a non-profit, science and educational foundation which fosters the conservation of the world's oceans, islands and wildlife. They do so by measuring penguin populations in Antarctica and the Sub-Antarctic regions on an annual basis. Each year scientists and representatives join us in the Southern Ocean, supported by our guests, to further this oceanographic research by counting penguins.

All itineraries are subject to change due to the expeditionary nature of our voyages and possible weather or ice conditions.

JOURNEY BELOW THE ANTARCTIC CIRCLE ●

This remote stretch of the Antarctic Peninsula is visited for just a few short months each year. From January onwards, seasonal ice conditions give us our best chance of achieving our objective of crossing the Antarctic Circle. Here we witness expansive landscapes, sizeable gentoo penguin rookeries and the huge icebergs trapped in the "ice-graveyard" by Petermann Island. We always anticipate exciting ice navigation on this expedition. Detaille Island, below the Circle, is a spectacular location. We aim to cross 66 degrees, 33 minutes south latitude, which officially marks the position of the Antarctic Circle on the global map.

ULTIMATE ANTARCTICA – WEDDELL SEA & FALKLAND ISLANDS ●

Diversity of experiences, destinations and wildlife encounters in Antarctica provide the highlights for this exceptional voyage. We fly south to Antarctica crossing the Drake Passage in just two hours. A further exploration of the South Shetland Islands and Antarctic Peninsula coastline sets the scene, before heading into the spectacular Weddell Sea, home to the 'big ice'. We journey north, stopping at Elephant Island – a very historic location central to the Shackleton story. The great pelagic seabirds join us as we navigate north towards the Falkland Islands. A final highlight will be a visit to the king penguin colony at Saunders Island or Volunteer Point.

ANTARCTICA DEEP SOUTH ●

This special journey takes us further south than almost any other time in the season. By flying at the start of the voyage, we save two days on the ocean crossing, allowing more time in destination. Here we witness stunning landscapes, sizeable gentoo penguin rookeries and the huge icebergs trapped in the "ice-graveyard" by Petermann Island. We anticipate exciting ice navigation when pushing this far south. This itinerary is available in several different durations.

MARINE MAMMALS OF ANTARCTICA ●

March is a time of great wildlife activity in Antarctic waters and historically we encounter a higher concentration of whales and seals during this period. They are busy feeding prior to their annual migrations to waters further north. On this voyage we plan to visit several known locations along the Antarctic Peninsula that are the focus of long-term research projects by esteemed academic institutions including the University of California, Santa Cruz, California Ocean Alliance and the Australian Antarctic Division's Marine Mammal Centre. We are joined on the ship by several world-renowned marine mammal experts and observe their important scientific fieldwork in close proximity.

One Ocean Expeditions is proud to sponsor and facilitate world-leading, nationally accredited science programs by providing more than 120 days of vessel time in remote areas of the world. **California Ocean Alliance** scientists, led by Dr. Ari Friedlaender, travel with us each year to Antarctica, conducting cutting-edge and multi-disciplinary research on marine mammals.

In February 2018, in a world first, Dr. Friedlaender led the first tagging of the elusive minke whale in the Southern Ocean. The video tags used were specially designed with non-invasive suction cups and 3D motion sensors that do not disturb the whales and fall off after approximately 24 hours. Upon retrieving the devices, researchers have now been able to study their GPS recordings and analyze the data, to better understand the patterns and feeding behavior of whales.

All itineraries are subject to change due to the expeditionary nature of our voyages and possible weather or ice conditions.

IMAGINE. EXPLORE. DISCOVER.

SOUTH & CENTRAL AMERICA

INCREDIBLE ACCESS TO AN ECOLOGICAL PARADISE

SMALL GROUP TRAVEL IN TEMPERATE CLIMATES

Discovering South and Central America with One Ocean Expeditions offers access to the invaluable wealth of experience in expedition cruising amassed by our team. The flexibility to optimize coastal routes, paired with the knowledge of local guides, allows us to discover parts of South and Central America that would otherwise be inaccessible. In small groups led by interest we explore the dramatic fjords of Chile, the exotic rainforest beaches of Costa Rica and the unique cultures along the coast of the Caribbean Sea. A collection of itineraries will venture through Chile, into the Pacific Ocean, through the Panama Canal and into the Atlantic Ocean. Guests have access to stand-up paddleboards, sea kayaks, snorkels and Zodiac excursions, ideal to fully appreciate the rich ecosystems and communities that thrive along the South and Central American coastlines.

SOUTH & CENTRAL AMERICA

CHILEAN FJORD ADVENTURE ●

Discover the dramatic fjords, immense glacial systems and stunning peaks of southern Chile. The incredible coastline offers unparalleled views, unique wildlife and a multitude of activities. This incredible voyage provides a tremendous opportunity to explore areas otherwise inaccessible by land-based excursions. Waking up to a new expedition stop each morning encourages us to dust off our cameras and board the Zodiacs, embracing the unknown.

CENTRAL AMERICA ADVENTURE ●

The subcontinent of Central America is home to 7% of the entire world's biodiversity. Explore exotic rainforest beaches and endemic species not found anywhere else. The jungles, seas and skies are teeming with colourful creatures. From inquisitive bottle-nosed dolphins in Costa Rica to haunting howler monkeys in Panama, guests will be in awe of the sheer abundance of wildlife that local guides will be able to identify. Experience one of the modern wonders of the world, sailing through the Panama Canal and enjoy a range of activities, all included in the voyage fare.

CENTRAL AMERICA EXPLORER ●

Visiting six countries in ten days, our Central America Explorer takes us through the tropical waters of Panama, Colombia, Nicaragua, Honduras, Belize and Mexico. Famous for its high concentration of wildlife, Central America offers the perfect blend of wildlife watching, active discovery and relaxation in warm waters. Guests can swim and snorkel, exploring the San Blas Islands, a relatively undiscovered archipelago in the Caribbean Sea, protected by the native Kuna. All optional activities are included in the voyage fare.

One Ocean Expeditions is committed to **sustainable travel and environmental responsibility**. We are dedicated to minimizing our impact on the areas we visit, whilst at the same time, supporting local socioeconomic development.

We have built our reputation as leaders in the field of sustainable tourism, and ensure that all of our vessels meet and exceed the latest marine environmental protocols. We burn cleaner fuels and treat our waste in the greenest way possible. We have also implemented an industry leading responsible purchasing system, taking great care to ensure the products we buy are not derived from endangered species; nor does the use of these products contribute to the loss of sustainability in the region from which they came. We are working towards the elimination of single-use plastics on board, providing guests with metal water bottles and refillable soap dispensers.

Our executive team sit on the boards of the Association of Arctic Expedition Cruise Operators (AECO) and the International Association of Antarctica Tour Operators (IAATO), voluntary polar organizations involved in key decision making in the creation of regulations designed to protect these fragile regions. There is only one ocean and we need to protect it.

All itineraries are subject to change due to the expeditionary nature of our voyages and possible weather.

ISLANDS OF THE NORTH ATLANTIC

A RICH TAPESTRY OF EXTRAORDINARY BEAUTY

DRAMATIC CLIFFS. NATURAL WONDERS. ANCIENT HISTORY.

Discover the stunning and dramatic islands of the North Atlantic, with expedition cruises to Scotland, Ireland, the Faroe Islands and Iceland. Immerse yourself in the unique cultures and ancient history of this region. Wildlife viewing and birding opportunities are endless as we sail into the secluded bays of Scotland, surrounded by steep cliffs. Explore the rolling green hills, grass covered roofs and spectacular waterfalls of the Faroe Islands, an archipelago in the middle of the North Atlantic. Discover the shallow fjords of Iceland; a haven for whales, dolphins and seals alike. The activities available are numerous, from Zodiac cruising, to whisky tasting, to golf on our new Scotland & Ireland golf voyage, that offers guests the opportunity to play at some of the best and well-known courses in the world.

ISLANDS OF THE NORTH ATLANTIC

SCOTLAND, FAROE ISLANDS & ICELAND – FOOTSTEPS OF VIKINGS & GAELS ●

Following in the footsteps of Vikings and Gaels, our voyage begins in Scotland, known for its rich tapestry of history, culture and rugged, natural beauty. An archipelago in the middle of the North Atlantic, the Faroe Islands are some of the more remote, inhabited islands in the world. Our last stop on our North Atlantic adventure takes us to Iceland, home to ice-covered volcanoes, colossal glaciers and geothermal lagoons. Each day we explore off the ship in the company of expert guides, cruising in the Zodiacs and enjoying walks on shore.

SCOTLAND & IRELAND – GOLF EXPEDITION ●

No two places are as closely linked to golf as Scotland and Ireland – they are the birth place of the modern game. Today, more than a dozen of the world's top 100 courses are located here. This expedition offers a totally unique take on the traditional golfing holiday. Not only does your expedition vessel negate the need for constant packing and unpacking, but you'll also enjoy breathtaking views and convenient access to the golf courses, as we shuttle you effortlessly via Zodiac from one to the next. Guests who aren't golfing will enjoy the same personalised programming as any other voyage, with their expedition cruise tailored around them and all activities included in the voyage fare.

One Ocean Expeditions' **new golf expedition** offers a totally new take on the traditional golfing holiday. Imagine waking up to a new and magnificent golf course each day from your floating wilderness lodge. You will be challenged in equal measure by the beauty and location of some of the most outstanding oceanfront courses in the world. As you relax and delight in your surroundings, your golf clubs are transferred to shore by Zodiac. Time is optimized by relocating the vessel overnight, creating a truly new way to play.

For non-golfing partners or friends, we offer a comprehensive program of alternative activities and sightseeing. Cruising in Zodiac boats, short and long hikes on shore, visits to historic locations, including castles and whisky distilleries plus small coastal communities are all part of the experience. There will be options for cycle touring, discovering beautiful beaches, or other aquatic activities. Our expert team of guides and ship-board staff provide a great range of on-shore and water-based experiences for the non-golfers while the golfers enjoy the challenges of these celebrated and historic courses.

All itineraries are subject to change due to the expeditionary nature of our voyages and possible weather or ice conditions.

THERE IS ONLY ONE OCEAN

DISCOVER OUR FLEET

BUILT FOR EXPLORATION. TAILORED FOR DISCOVERY.

One Ocean Expeditions' well-appointed and unique vessels are considered by many to be the best polar expedition ships in the world. Akademik Ioffe and Akademik Sergey Vavilov were built to conduct sensitive hydro-acoustic research and science in the polar regions, and are now used for expedition cruising. RCGS Resolute, built specifically for passenger expedition cruising, offers the ultimate combination of capability and comfort. All three vessels were built in the iconic shipyard of Rauma, Finland and offer modern stabilization and an unsurpassed ice classification (Lloyds 1A/1AS), compliant with the new Polar Code. Pioneers in small group travel, One Ocean Expeditions is perfectly equipped with the right hardware and programming to offer our full range of activities, guiding our adventurous guests on their quest to imagine, explore and discover the world's most remote and inspiring regions.

AKADEMIK IOFFE

ONE OCEAN NAVIGATOR

Designed for long range polar research, the Akademik Ioffe (One Ocean Navigator) is modern, comfortable, safe and ice-strengthened. She is the near identical sister ship to Akademik Sergey Vavilov. From small-group sessions to briefings for all passengers, we have public spaces onboard the ship ideally suited for each and every need. A separate lounge and bar, as well as a library, provide ideal places to sit and relax or catch up on some reading. A selection of movies and documentaries can also be watched in the lounge. The sumptuous meals prepared for you by our culinary team are enjoyed in our dining room, which can host all clients in a single seating and will keep you feeling healthy and strong for the myriad of activities enjoyed in small groups, offered throughout the voyage. Other facilities include the theatre style presentation room, gift-shop, fitness room, massage room, hot water spa, sauna and plunge pool.

DECK 6

DECK 5

DECK 4

DECK 3

Akademik Ioffe and **Akademik Sergey Vavilov** were built for the Russian Academy of Science in 1989 and 1988 respectively. Both vessels have contributed to international discoveries in the fields of hydro-acoustics and the study of salinity, temperature and currents of the world's oceans. Many of the original scientific instruments can be seen onboard today. The interesting names originate from a custom in the USSR, in which their fleet of oceanographic research ships were named after famous scientists. The vessels are named after two very prominent members of the scientific fraternity.

Akademik Abram Ioffe (1880–1960) was a prominent physicist. He established research laboratories for radioactivity, superconductivity and nuclear physics, many of which became independent institutes. Akademik Sergey Ivanovich Vavilov (1891–1951) was a physicist and the President of the Russian Academy of Sciences from 1945 until his death in 1951. He was known for his works in luminescence.

ONE OCEAN SUITE

Located on deck 5 this cabin is separated into two very spacious rooms. A spacious lounge area is perfect for relaxation and features a sofa (convertible to bed), large table, writing desk, ample storage, plus large picture windows overlooking the bow (forward facing) that can be opened. The separate bedroom features a double bed with upgraded linens and pillows, night-light, and window over the port side of the ship. The bathroom has a bathtub and shower. There is also a region specific iPad, mini stereo, coffee maker, fully stocked mini-bar, iPod alarm clock with audio line and several arm chairs.

SHACKLETON SUITE

Located on decks 4 and 5 these cabins are separated into two spacious rooms, one that is ideal for relaxation with a sofa (convertible to bed), large table, writing desk, chair, ample storage and a large window that can be opened. A separate private bedroom has a double berth with upgraded linens and pillows, night-light, private facilities, a region specific iPad, mini stereo, coffee maker, fully stocked mini-bar and iPod alarm clock with audio line.

SUPERIOR CABIN

These very large cabins are located on deck 6, and feature two lower berths, a loveseat or chairs, writing desk and chair, ample storage and private washroom facilities. All cabins have a window that can be opened. These cabins provide great access to the outer observation decks and ship's bridge.

TWIN PRIVATE CABIN

Located on decks 4 and 5 these spacious, well-appointed cabins feature two lower berths, with private washroom facilities (sink, shower, toilet and bathroom cabinet). There are tall wardrobes with internal shelving for storage, a writing desk, chair, bookshelf, and a window that can be opened.

TWIN SEMI PRIVATE

Located on deck 4 these cabins have two lower berths, one of which can be converted to a sofa during the day. These cabins have tall wardrobes with internal shelving for storage, a writing desk, chair, bookshelf, and a window that can be opened. Facilities are semi-private – meaning you share the washroom with the adjacent cabin.

MAIN DECK TRIPLE

Located on deck 3 these cabins feature two lower berths and one upper berth. One lower berth can be converted to a comfortable sofa during the day. Washroom facilities are shared. There is a washbasin in the cabin, a writing desk and chair and ample storage for all cabin occupants. These cabins are efficient and well-appointed with two portholes with the option to open one.

AKADEMIK SERGEY VAVILOV

ONE OCEAN VOYAGER

Designed for long range polar research, Akademik Sergey Vavilov (One Ocean Voyager) is modern, comfortable, safe and ice-strengthened. The vessel features numerous passenger areas ideal for small group briefings or information sessions. An expansive observation lounge and bar offers sweeping 180-degree views, making it an ideal location for catching up over drinks or writing in your journal. The library/reading room is well stocked with fiction and non-fiction and is a wonderful spot to enjoy reading. The sumptuous meals prepared for you by our culinary team are enjoyed in our dining room, which can host all clients in a single seating and will keep you feeling healthy and strong for the myriad of activities, enjoyed in small groups, offered throughout your voyage. Other facilities include the theatre-style presentation room, gift-shop, fitness room, massage room, hot water spa, sauna and plunge pool.

DECK 5

DECK 6

DECK 4

DECK 3

One Ocean Expeditions travels to some of the most extraordinary places in the world. What better way to truly appreciate these unique destinations than by exploring at your own pace, in **small, interest-led groups**. Our vessels carry a range from 92-146 guests, ensuring that you are able to join excursions every single time. Our Zodiac boats hold no more than 10-12 people, allowing you to spend quality time with your fellow passengers and guides. You can truly enjoy your expedition in the way you choose, opting for charging hikes, walks with naturalists or even enjoying some alone time on the ship.

When you travel with One Ocean Expeditions, you also have the option of utilizing an **expedition gear package** free of charge. Containing approximately US\$900 worth of essential equipment, this kit includes a quality waterproof/windproof jacket and bib-pants, plus insulated rubber boots designed for extended walking. We also include a set of binoculars and trekking poles for use on shore. A waterproof backpack completes your package. We will help you select the right gear and show you how to secure your personal floatation device. We take care of the details so you can enjoy the experience.

ONE OCEAN SUITE

Located on deck 5 this cabin is separated into two very spacious rooms. A spacious lounge area is perfect for relaxation and features a sofa (convertible to bed), large table, writing desk, ample storage, plus large picture windows overlooking the bow (forward facing) that can be opened. The separate bedroom features a double bed with upgraded linens and pillows, a night-light, and window over the port side of the ship. The bathroom has a bathtub and shower. There is also a region specific iPad, mini stereo, coffee maker, fully stocked mini-bar, iPod alarm clock with audio line and several arm chairs.

SHACKLETON SUITE

Located on decks 4 and 5 these cabins are separated into two spacious rooms, one that is ideal for relaxation with a sofa (convertible to bed), large table, writing desk, chair, ample storage and a large window that can be opened. A separate private bedroom has a double berth with upgraded linens and pillows, a night-light, private facilities, a region specific iPad, mini stereo, coffee maker, fully stocked mini-bar, iPod alarm clock with audio line.

SUPERIOR CABIN

There are three superior cabins, all located on Deck 3. These spacious and well-appointed cabins feature two lower berths, a writing desk and chair and plenty of storage space. Washroom facilities are private and all cabins have a porthole, which opens. These cabins provide great access to the outer decks, the dining room and gangway.

TWIN PRIVATE CABIN

Located on decks 3, 4 and 5 these spacious, well-appointed cabins feature two lower berths, with private washroom facilities (sink, shower, toilet and bathroom cabinet). There are tall wardrobes with internal shelving for storage, a writing desk, chair, bookshelf, and a window that can be opened. Twin Private cabins on deck 3 feature portholes instead of windows.

TWIN SEMI PRIVATE

Located on deck 4 these cabins have two lower berths, one of which can be converted to a sofa during the day. These cabins have tall wardrobes with internal shelving for storage, a writing desk, chair, bookshelf, and a window that can be opened. Facilities are semi-private – meaning you share the washroom with the adjacent cabin.

MAIN DECK TRIPLE

Located on deck 3 these cabins feature two lower berths and one upper berth. One lower berth can be converted to a comfortable sofa during the day. Washroom facilities are shared. There is a washbasin in the cabin, a writing desk and chair and ample storage for all cabin occupants. These cabins are efficient and well-appointed with two portholes with the option to open one.

RCGS RESOLUTE

Designed for comfort, RCGS Resolute is modern, well-appointed, safe and ice-strengthened. From small group sessions to briefings for all passengers, we have public spaces onboard the ship ideally suited for each and every need. Two separate bar and lounge areas featuring 180-degree views and a wonderfully stocked library provide ideal places to relax or catch up on some reading. The sumptuous meals prepared for you by our culinary team are enjoyed in either of our two dining rooms, one of which features our popular bistro menu offering quick and easy meals for those prioritizing time out on deck. Both dining rooms have ample and open seating, paired with modern furnishings and large picture windows with 180-degree views. Other facilities include our theatre style presentation room, gift-shop, gymnasium, wellness centre, hot water spa, sauna and steam room and salt water pool.

RCGS RESOLUTE

DECK 7

DECK 6

DECK 5

DECK 4

DECK 3

DECK 2

RCGS Resolute is named after the Inuit town of Resolute, in Nunavut territory, which in turn was named after the Merchant Navy vessel, HMS Resolute by Canadian settlers. Built in 1850, HMS Resolute was lost in the Arctic ice from 1854-55. It was then discovered by the U.S. and returned to the British Royal Navy in 1856. Along with her historical roots, RCGS Resolute is proud to carry the ship prefix of **The Royal Canadian Geographical Society (RCGS)**, our exclusive marine travel partner in education, environmental science, and exploration.

ONE OCEAN SUITE

Located on deck 6 these cabins offer ample space (44m²) including the comfort of a sectional lounge with matching club chairs, a large desk, expansive soft-close cabinetry, washroom facilities including both a shower and bathtub. Sleeping quarters feature the option for either a double or two single configured beds with upgraded linens and pillows. Included are a night-light, region specific iPad, mini stereo, coffee maker, stocked mini-bar, alarm clock with audio line, private flora and fauna library, all to enjoy amidst the large picture windows overlooking either the port or starboard side of the vessel.

SHACKLETON SUITE

Located on deck 6 these cabins offer ample space (22m²) including the comfort of a sectional lounge, a large desk, expansive soft-close cabinetry, washroom facilities including both a shower and bathtub. Sleeping quarters feature the option for either a double or two single configured beds with upgraded linens and pillows. Included are a night-light, region specific iPad, mini stereo, coffee maker, stocked mini-bar, alarm clock with audio line, private flora and fauna library, all to enjoy amidst the large picture windows overlooking either the port or starboard side of the vessel.

SUPERIOR PLUS CABIN

Located forward on deck 5 these cabins feature the option for either a double or two single configured beds. A sectional lounge is placed by the large picture windows, writing desk and chair, ample storage and private washroom facilities. These cabins are spacious and comfortable. Along with our full range of in-cabin amenities, cabins feature an in-room mini-bar offering wine and beer replenished daily, a field guide, voyage notebook and private reference library.

SUPERIOR CABIN

Located forward on deck 5 these cabins feature the option for either a double or two single configured beds. A sectional lounge is placed by the large picture windows, writing desk/chair, ample storage and private washroom facilities. These cabins are spacious and comfortable. Along with our full range of in-cabin amenities, guests also enjoy an in-room mini-bar featuring wine and beer replenished daily, a field guide and voyage notebook.

TWIN PRIVATE CABIN

Located on deck 4 these cabins feature the option for either a double or two single configured beds. A sectional lounge is placed by the large picture windows, writing desk/chair, ample storage and private washroom facilities. These cabins are spacious and comfortable.

MAIN DECK TRIPLE

Located on deck 3 these cabins feature the option for a double or two single beds and a third Pullman berth, which can fold out from the wall if required. A sectional lounge is placed by the portholes, writing desk and chair, ample storage and private washroom facilities. These cabins are spacious and well-appointed.

THERE IS ONLY ONE OCEAN

TRAVEL WITH PURPOSE

THE ONE OCEAN FOUNDATION

From the beginning, One Ocean Expeditions and our guests have been contributing to programs aligned with our core values of education, exploration, science, socioeconomic development and sustainable tourism. As part of our commitment to environmental and social responsibility and to giving back to the communities in which we operate, we created The One Ocean Foundation (Canadian registered not-for-profit) in 2017 to house the growing financial contributions from both passengers and the company itself.

Through The One Ocean Foundation, a wide range of community outreach programs have been developed in partnership with hand-selected organizations. This has enabled millions of dollars in financial support to build, evolve and continue the development of key programs. These programs delve into and support areas of food security, youth recreation and sport in the Canadian Arctic, studies in global ocean science literacy and plastics research, and national development of youth geographical and oceanic education.

The select beneficiaries and key programs supported under The One Ocean Foundation include: The Royal Canadian Geographical Society (RCGS), Ocean Wise, Oceanites, California Ocean Alliance, Recreation and Parks Association of Nunavut (RPAN), Vancouver Maritime Museum, South Georgia Heritage Trust, Scott Polar Research Institute (SPRI) and The New Zealand Antarctic Heritage Trust.

PARTNERS

Building Long Lasting & Meaningful Relationships

THE ROYAL CANADIAN GEOGRAPHICAL SOCIETY (RCGS)

One Ocean Expeditions and The Royal Canadian Geographical Society are exclusive partners in education, environmental science and exploration in Canada's North. This historic partnership expands both organizations' capacity to promote education, scientific research, as well as social and economic development in the Canadian Arctic. We are supporting the core mission of RCGS: to make Canada better known to Canadians and to the world.

OCEAN WISE

Ocean Wise is a recognized international leader in connecting people to our natural world. We have created a formal partnership to expand our joint educational programming, allowing Ocean Wise to conduct ground-breaking research onboard. Initiatives include documenting microplastics in Arctic and Antarctic waters, creating the first Barcode of Life DNA database, as well as marine mammal tracking and oceanographic sampling.

OCEANITES

For over 25 years, Oceanites has been in Antarctica counting penguins, providing scientific data and analyses on population changes to empower fact-based conservation. One Ocean Expeditions supports Oceanites onboard to ensure that timely and accurate penguin surveys are conducted at critical times on specific rookeries along the Antarctic Peninsula.

CALIFORNIA OCEAN ALLIANCE (COA)

California Ocean Alliance conducts world-class marine research, leading directly to sound policy decisions that safeguard marine mammals. COA scientists, led by Dr. Ari Friedlaender, travel with us each year to Antarctica, conducting cutting-edge research. By improving our understanding of behaviour, as well as promoting continued conservation and management, we hope to better understand the effects of a changing climate on these magnificent mammals.

RECREATION & PARKS ASSOCIATION OF NUNAVUT (RPAN)

Nunavut's leader and a voice for community recreation was established in 2012 with a commitment to enhance the quality of life for individuals and communities through recreation. RPAN has provided training and certification to more than 350 leaders and youth. In 2017, with our assistance, RPAN launched NU Play, a youth focused initiative combining their most successful youth training program with a new year-round initiative.

VANCOUVER MARITIME MUSEUM (VMM)

The VMM has worked to preserve maritime history in the Pacific Northwest and the Arctic. Working with local community members, they have built a program with One Ocean Expeditions to inspire youth to learn about their heritage. Newly developed community engagement projects allow historical artifacts to be reintroduced back to remote Inuit communities.

SOUTH GEORGIA HERITAGE TRUST (SGHT)

Established in 2005, the South Georgia Heritage Trust raises funds to support heritage preservation and the conservation of indigenous flora and fauna in South Georgia - an island with the greatest concentration of seabirds on the planet. We began supporting the SGHT in the successful invasive species eradication program, protecting many bird species from extinction, and continue to support the SGHT's ongoing efforts to restore the island's natural ecology.

SCOTT POLAR RESEARCH INSTITUTE (SPRI)

Part of the University of Cambridge, The Scott Polar Research Institute is the centre of excellence in the study of the Arctic and Antarctica in both the natural and social sciences. We support SPRI's mission to enhance the understanding of the polar regions through scholarly research. SPRI is educating new generations of polar researchers, caring for and making accessible its world-leading collections and protecting the history and environmental significance of the polar regions to the wider community.

THE NEW ZEALAND ANTARCTIC HERITAGE TRUST

The New Zealand Antarctic Heritage Trust is a charity with the mission to conserve, share and encourage the spirit of exploration. The Trust cares for the remarkable expedition bases of early Antarctic explorers, including Captain Robert Falcon Scott, Sir Ernest Shackleton and Sir Edmund Hillary. It shares the legacy of exploration through outreach programs and encourages the spirit of exploration through expeditions to engage and inspire a new generation.

VICTORIA STRAIT EXPEDITION

The successful find of HMS Erebus in 2014 marked a momentous breakthrough in the exploration of the Canadian Arctic. In 1845, Sir John Franklin and his crew set off on their ill-fated expedition to find an access route through the Northwest Passage. HMS Erebus and HMS Terror failed to return, sparking one of the greatest marine mysteries of all time. Previous searches for answers helped to map Canada, but resulted in little evidence as to the fate of Franklin and his crew.

In 2014, One Ocean Expeditions joined The Royal Canadian Geographical Society as a partner in the Parks Canada-led Victoria Strait Expedition, contributing our vessel, Akademik Sergey Vavilov, to an undertaking that resulted in the discovery of Franklin's long-missing HMS Erebus. It had been resting on the ocean floor in near perfect condition for over 160 years. Subsequently the HMS Terror was found two years later.

Through methodical research and a carefully planned joint venture, One Ocean Expeditions was able to help unlock the mystery of HMS Erebus, and in doing so showcase our capabilities as a leading Canadian polar operator and a world-leader in safe and sustainable expedition travel.

ONE OCEAN EXPEDITIONS SCIENCE RESEARCH LAB

One Ocean Expeditions continues to expand education and awareness in ocean health literacy by partnering with carefully selected organizations worldwide. In consultation with leading scientists, we have created and integrated a clean, mobile laboratory space, consistently enabling cutting-edge research in some of the most remote and inaccessible parts of the world. By offering a dedicated platform for oceanographic inquiry, scientists are able to conduct their work in a controlled environment, allowing efficient analysis of data. Whilst onboard, our guests have the unique opportunity to learn from and interact with ocean health experts, sharing knowledge and creating ambassadors for the sensitive regions in which we travel.

COME AS A PASSENGER, LEAVE AS A FRIEND

For over a decade, thousands of intrepid travellers have experienced the remote regions of the world on a One Ocean Expeditions small-ship voyage. All of our guests who walked up the gangway of their ship came as a passenger and left as a friend. Together, we have shared some of life's most unique experiences. Few will forget their first polar bear, or Antarctic tabular iceberg, meeting an Inuit family in the Arctic, or the thrill of observing king penguins in South Georgia. These are memories to treasure. We want you to feel part of the One Ocean family. We have created the most generous past passenger loyalty program offered in the expedition travel industry. Speak to our sales team or your preferred agent for more information. We look forward to welcoming you back onboard.

"Such a fantastic experience! The staff were entertaining, extremely knowledgeable and took excellent care of us. The excursions were simply breathtaking. I honestly cannot think of how they could have provided a better experience. Thank you so much to One Ocean Expeditions for the trip of a lifetime. I've traveled to over 70 countries on countless tours and this company is truly one of the best I've experienced thus far!"

All prices are in US\$ per person sharing | Voyages start and finish in locations as indicated | A 5% GST will be added to the voyage price for domestic Canadian itineraries | In the Canadian Arctic, charter flights are required to get to the start and finish points of the voyage. Ottawa is our gateway for Iqaluit (Baffin Island) and Kangerlussuaq (Greenland). Edmonton is our gateway for Cambridge Bay (Nunavut). We have negotiated competitive airfares of US\$1995 round-trip/return. The cost of these flights will be added to your voyage price | Single supplement is 1.5 x the published twin rate for twin private and superior cabins. Single supplement is 2 x the published twin rate for suites. Single supplement is not available in triple cabins | Expedition sea kayaking program is an additional US\$695 per person - available on all departures (US\$495 Chilean Fjords). Note: Kayaking is included in the price for the Central America, 'Canada's East Coast - Fins & Fiddles' and 'Golfing Expedition' voyages. Please contact your OOE sales representative or preferred travel agent for non-golfing rates.

 A Canadian Signature Experience as designated by Destination Canada

✈️ SANTIAGO - YOUR GATEWAY CITY: All Stanley arrivals and departures connect by charter flight to/from Santiago.

All prices are in US\$ per person sharing. | Voyages start and finish in locations indicated | Single supplement is 1.5 x the published twin rate for twin-semi private, twin private and superior cabins. Single supplement is 2 x the published twin rate for suites. Single supplement is not available in triple cabins. No single supplement applies for passengers willing to share | Sea kayaking program is an additional US\$795 per person. You must pre-register for this activity at time of booking | Photography Symposium (Limited Availability) - interested participants must pre-register for these programs at time of booking. | Camping in Antarctica is included in the price of your voyage. There is no need to pre-book this activity however, we ask for expression of interest at time of booking. (Camping is subject to weather conditions). Please note - camping is less likely to happen on the longer voyages to the Falkland Islands, South Georgia and Antarctica itineraries or on March voyages. Camping is not offered on 'South Georgia - In Depth' voyages.

RCGS RESOLUTE - Voyages commencing/ending in Stanley (Falkland Islands) are accessed by flights from Santiago, Chile. The cost of these flights will be added to your voyage price | Kayaking is open to 30 participants per voyage at an additional cost | 'Antarctica - Off the Beaten Track' (06 NOV 19) features a range of additional activities, including ski touring, snowshoeing, overnight sea-kayaking and photographic workshops. You must pre-register for these activities at time of booking. Additional costs may apply.

AKADEMIK IOFFE / AKADEMIK SERGEY VAVILOV - Voyages commencing/ending in Stanley (Falkland Islands) or King George Island (Antarctica) include flights from Punta Arenas (Chile). The cost of these flights is included in the voyage price | Voyages ending at King George Island (Antarctica) and flying back to Punta Arenas (Chile) include one night complimentary hotel accommodation at the end of the voyage in Punta Arenas | Kayaking is open to 16 participants per voyage at an additional cost.
