ADVENTURES

Over the last few years we have been rebuilding from scratch the Tundra Buggy Lodge. Last year we rolled out Dan's Diner, a new dining hall with enormous windows and skylights throughout, a feature plating station for Chef Jared and his team to showcase their amazing talents, and a fully automatic and self-serve Franke commercial coffee system. We continue to improve the Tundra Buggy Lodge guest experience and can't wait to host you there!

Historically we've utilized the Tundra Buggy Lodge during our polar bear touring season and over the last few years have had tremendous success incorporating Thanadelthur, the Tundra Buggy Lodge lounge, as an aurora viewing destination. New for 2019, we will be delivering our northern lights and culinary experiences at Dan's Diner, which is also the Tundra Buggy Lodge dining hall. Our northern lights programs occur on the west side of the Churchill River, a completely different landscape than Polar Bear Point and Cape Churchill.

In 2019 we introduce a new stand-alone adventure in southern Manitoba's Riding Mountain National Park. These classic tours includes game drives in search of moose, bison, black bear and elk, as well as the numerous other wildlife found in the area.

Finally, continuing with our sustainability efforts, this past year we are proud to have introduced a lanyard recycling program, compostable packaging for our Tundra Buggy and in-flight meals, as well as LED lighting throughout the Tundra Buggy Lodge.

2019 is going to be a great year!

# Where We Travel Matters

*With over 30 years experience leading wildlife adventures, we've learned a thing or two about selecting destinations that we believe represent the incredible beauty of Canada and the North.*

Travelling into these extraordinary corners, we take our guests into areas where wildlife, culture and history come alive and the stunning landscapes leave an impression that will not be forgotten.

## **Churchill Wildlife Management Area**

Situated along the coast of the Hudson Bay, the Churchill Wildlife Management Area (CWMA) is at the intersection of three distinct eco-zones: arctic marine, sub-arctic tundra and boreal forest. Hop aboard an official Tundra Buggy as it takes you to Polar Bear Point at the heart of the CWMA. Polar Bear Point lies directly within the migratory path of one of the largest polar bear populations in the world. Learn more about adventures including a Tundra Buggy excursion on pages 16-29.

## **Wapusk National Park**

Wapusk National Park has been a gathering point for polar bears for hundreds of years. Within its borders lies Cape Churchill, renowned as the best place on Earth to see polar bears in the wild, and seasonal home of Frontiers North's Tundra Buggy Lodge. Fall asleep and wake up with these majestic creatures right outside your window, and on clear nights enjoy the dancing of the incredible northern lights. Only Frontiers North has access to this incredible place where polar bears await the freezing of Hudson Bay. Learn more about Cape Churchill on page 25.

## **Riding Mountain National Park**

Explore the bold boreal forests, expanses of meadows and lakes, lofty heights and deep gorges of the Manitoba escarpment. Home to moose, black bear, a captive bison herd and other incredible wildlife, Riding Mountain National Park will show you Manitoba's wild side. Learn more about adventures in this area on pages 19-20.

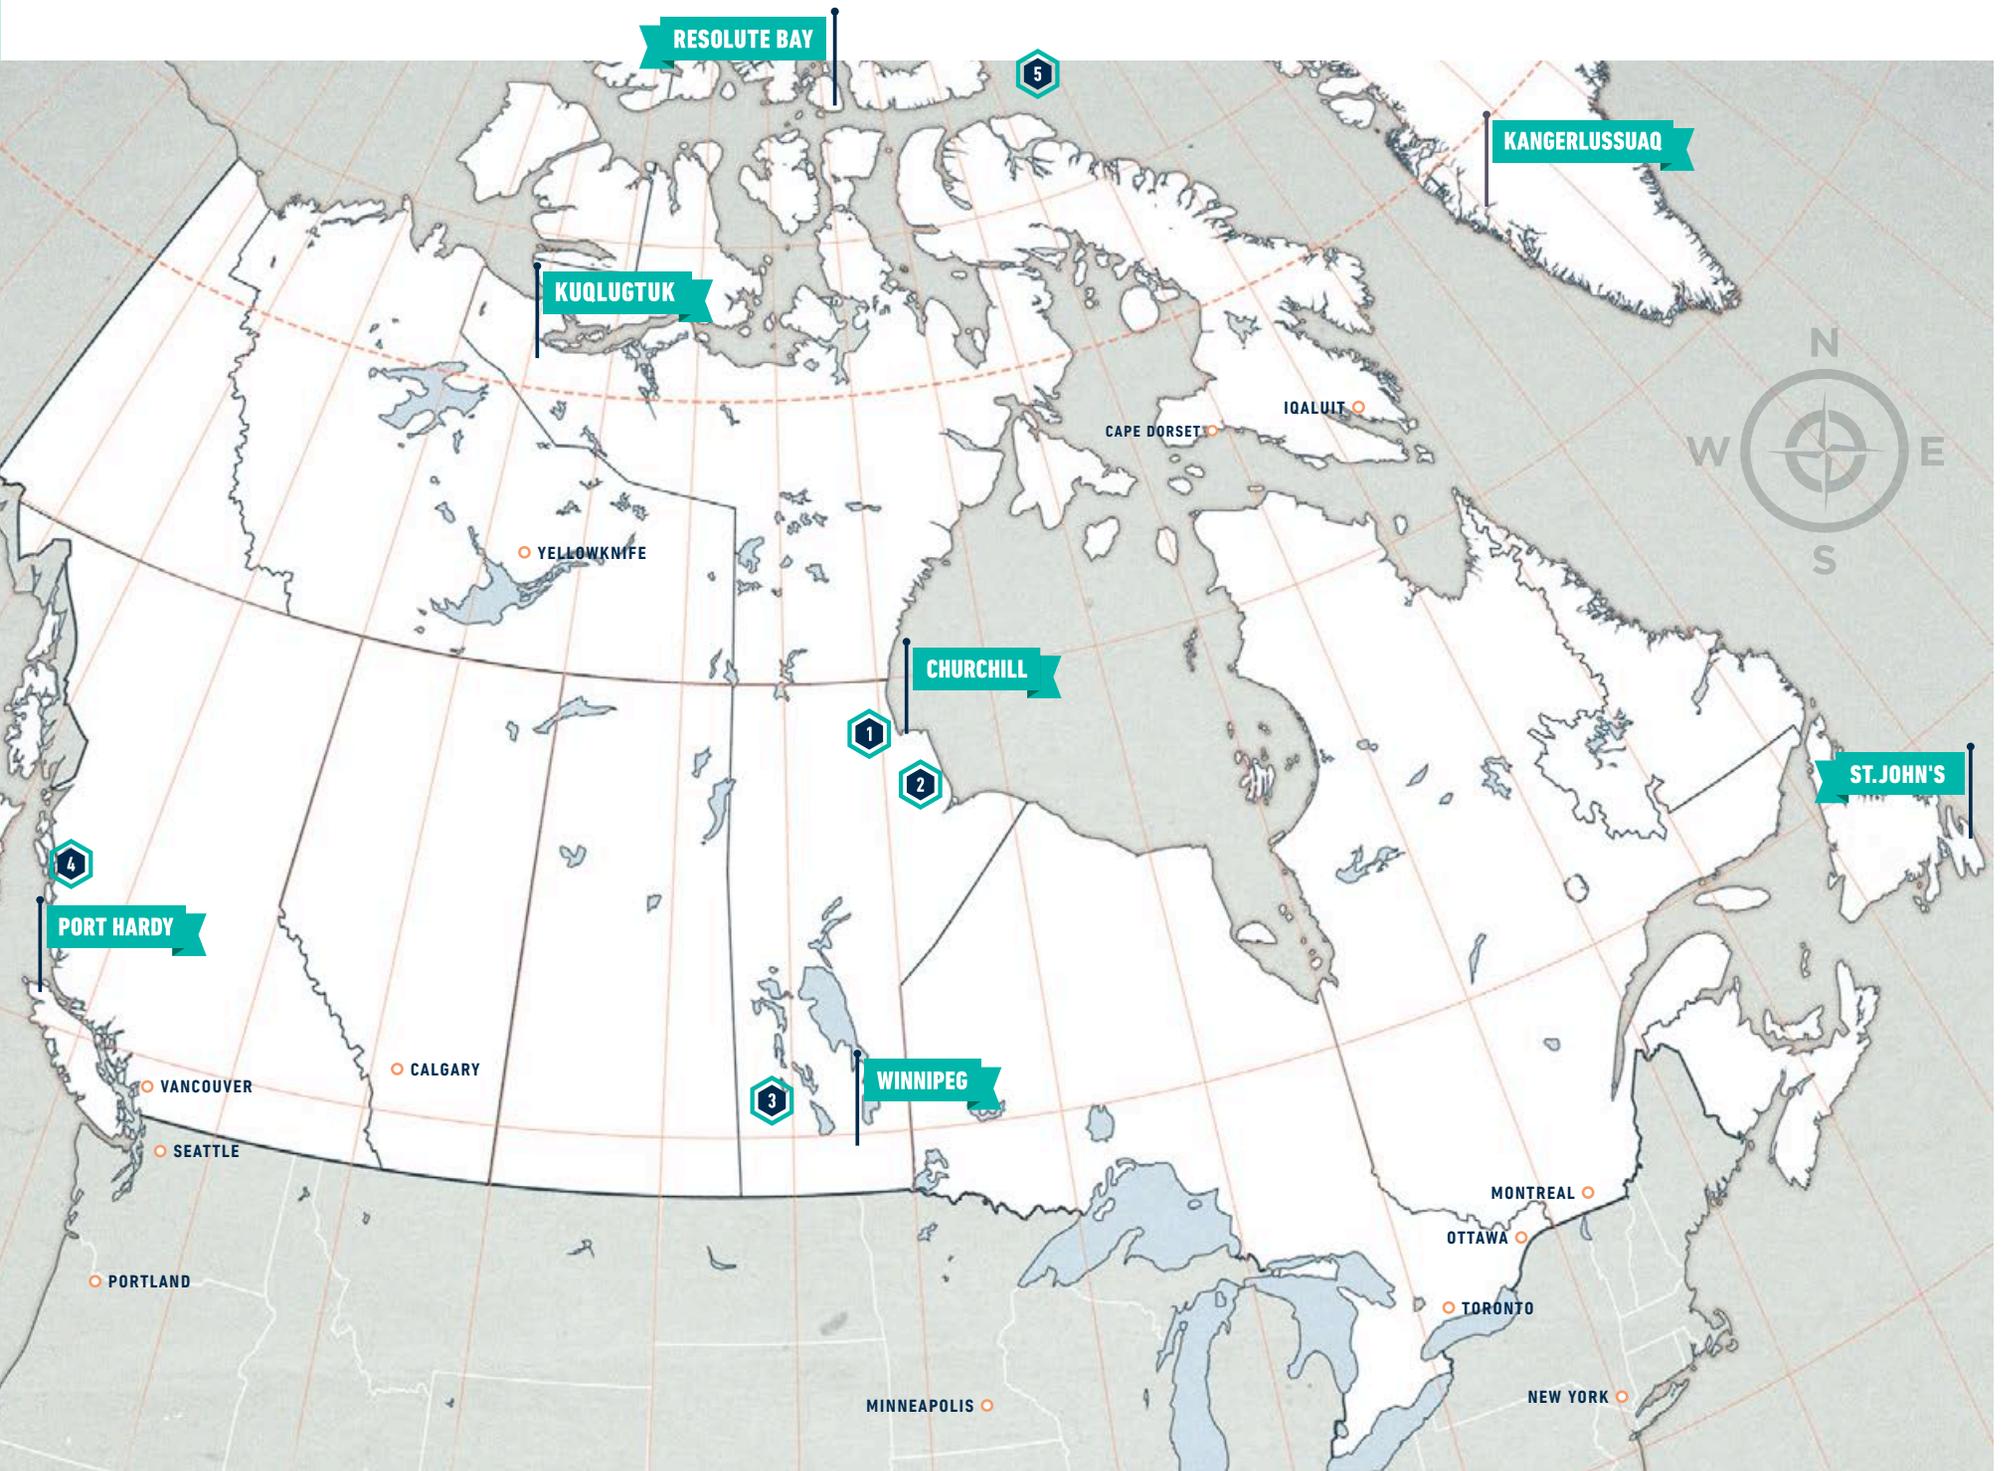

## **Great Bear Rainforest**

An emerging destination for wildlife viewing and ecotourism, there are no roads to this rugged coastline on Canada's west coast. Home to bears, wolves and whales, enjoy exploring one of Earth's last great wild places on foot or by boat taking in the culture and natural history. This place of spectacular beauty is home to Great Bear Lodge, a fully self-contained floating lodge situated in an outstanding wildlife viewing location. Learn more about this incredible experience on page 32.

## **Northwest Passage**

For centuries, the Northwest Passage has been thought of as the pinnacle of northern exploration. Even today, few venture into this remote route through Canada's arctic. The passage takes you along the shores of islands sparse in human inhabitants but teeming with wildlife and natural wonders. Learn more about this incredible journey cruising through Canada's North on page 33.

# Why Frontiers North Adventures

## WE ARE TOURISM LEADERS

We are an award-winning and internationally known leader in Canada's eco-tourism industry and have been recognized by the Tourism Industry Association of Canada as one of the top three sustainable tourism operators in Canada. We are proud that our Frontiers North Tundra Buggy Adventure was hailed as a quintessential Canadian tourism experience by Destination Canada, and was awarded Signature Experience status.

## PASSIONATE, PROFESSIONAL GUIDES

Our world-class guides and drivers offer a wealth of knowledge and experience. Chosen for their expertise, our enthusiastic and engaging team will make sure you leave having had the adventure of a lifetime.

**KEVIN**  
Tundra Buggy Driver since 1991.

## EXCLUSIVE ACCESS

We work tirelessly to meet standards set by Manitoba Sustainable Development and Parks Canada, which allows us to take guests into places where only we can go, offering unparalleled experiences. We currently hold the only business license to house guests inside Wapusk National Park; and we also hold the most permits to operate on the Churchill Wildlife Management Area trail network. We have an impeccable safety record and hold all the necessary permits that allow our guests to travel with peace of mind.

## FRONTIERS NORTH ADVENTURES

is a family-owned and -operated business that has been specializing in adventures to Canada's north for over 30 years. Our programs are designed for guests with specific interests in experiential travel, photography, wildlife, culture and adventure. Since day one, we have built our business working closely with the communities and locals within the communities we visit. It's these relationships that make the difference between a cool vacation and an amazing, authentic and intimate adventure.

# 30+

**POLAR BEARS INTERNATIONAL**

## PARTNERING WITH POLAR BEARS INTERNATIONAL

Through our exclusive partnership with Polar Bears International, we provide an opportunity for our guests to learn first-hand from species experts who join us on our Tundra Buggies and at our Tundra Buggy Lodge to share their knowledge about arctic wildlife and climate change.

## WE'RE COMMITTED TO CONSERVATION AND SUSTAINABILITY

We believe that our responsibility as a wildlife tour operator includes not only a focus on conservation, but also on supporting the communities in which we travel. Through our support of Polar Bears International and the northern communities where our tours take place, we are able to provide an enriched experience for our guests and at the same time do some good for the wildlife, people and places where we operate.

## BEST VALUE FOR YOUR MONEY

Our guests invest time and money into visiting Canada. That's why our adventures are planned by experienced wildlife and nature enthusiasts who understand the complexities of northern travel and who value exploration, community and life-changing travel experiences.

# Our Commitment to Corporate Social Responsibility

For decades, long before the term 'sustainability' came into common use, we've been integrating sustainable practices into our operations. Our commitment to sustainability starts with a deep appreciation of the fragile environments in which we operate, and our good fortune in being afforded rare access to special places we can share with our guests.

Our approach to social responsibility involves three core areas: Environmental Stewardship, Caring for People and Community Involvement. Here are a few highlights of our activities and achievements in these areas:

## Environmental Stewardship

- We manage our operations using an Environmental Impact Assessment.
- By optimizing operations, we have reduced our per guest GHG emissions.
- We support pioneering, non-invasive polar bear research.
- By eliminating disposable H2O bottles from our tours, we prevent the waste of approximately 3,780 plastic bottles per year.

## Caring for People

- We have a 99% guest satisfaction rate.
- We have a profit sharing program for staff of up to 10% of annual salary.
- We value and employ a diverse workforce: 11% Indigenous, 11% visible minority and 50% of our management team are women.

## Community Involvement

- We partner with the Junior Canadian Rangers and provide bursaries for local students.
- We donate 2% of pre-tax profits to social causes.
- Our purchasing policy ensures we source local, Indigenous and suppliers that support social and environmental responsibility.

To learn the full extent of our social responsibility activities, visit us online [frontiersnorth.com/our-story/social-responsibility](https://frontiersnorth.com/our-story/social-responsibility)

# Sharing Polar Bears with the World

As a travel company, we bring guests to incredible corners of Canada's North so they can experience firsthand the history, culture and wildlife of an area of the world that not many people will have the chance to see. We realize that we also have a responsibility to not only ensure we are travelling sustainably in these fragile ecosystems, but also to inspire and educate people around the world to be passionate about the North and everyone – and everything – who live there. It is this responsibility that has fuelled our partnership with Polar Bears International.

Polar Bears International (PBI) is the world's leading polar bear conservation group, dedicated to saving polar bears by saving their habitat. Since 2002, Frontiers North Adventures has been a Platinum sponsor of PBI and through this partnership we have collaborated on a number of projects intended to inspire people all over the globe.

For more information about our partnership with PBI visit [frontiersnorth.com/polarbearsinternational](http://frontiersnorth.com/polarbearsinternational)

## Tundra Buggy One

Tundra Buggy One is a mobile broadcast and research centre we created exclusively for PBI's use. Buggy One is outfitted with tools and equipment that enable polar bear scientists to study bears and broadcast live webcasts and video from the remote tundra, sharing up-to-date information on Churchill's polar bears with audiences around the world.

# 1.5 mil

Number of views of polar bear content via live feeds from Tundra Buggy One during October and November 2017.

# 512

Guests that experienced presentations by PBI's polar bear species experts at our Tundra Buggy Lodge in 2017.

## Tundra Buggy Lodge

During October and November, PBI researchers and scientists use Frontiers North's Tundra Buggy Lodge as their in-field headquarters. Guests staying at the Lodge have the chance to meet and mingle with PBI's scientists each night and enjoy informative evening presentations.

## Polar Bear Cam

More than a decade ago we created [polarbearcam.com](http://polarbearcam.com), a site where viewers from around the world could see what we see in Churchill. Thanks to our partnership with PBI and [explore.org](http://explore.org) we are able to inspire millions of people around the globe by streaming live footage of Churchill's polar bears during their autumn migration.

## Tundra Connections®

Every fall, PBI conducts live, free broadcasts—webcasts, live chats, and Google Hangouts on air—from Tundra Buggy One during the polar bear migration in Churchill. Each week focuses on a different theme, tapping into the expertise of guest panelists. Viewers are able to see wild polar bears, meet experts, and ask questions and receive answers in real time.

# 1.9 mil

The approximate number of people who tuned into the Polar Bear Cam to view Churchill's polar bears during the 2017 polar bear season.

# 80,733

Number of individuals who viewed live Tundra Connections webcasts in 2017. This includes classrooms ranging from Pre-K all the way to university, zoo staff and the general public.

# 1,135

Number of Frontiers North guests that met a PBI in-field ambassador on their Tundra Buggy in 2017.

## PBI Field Ambassador Program

Each year the PBI Field Ambassador program selects 3-4 zoo professionals to join their team in Churchill. These volunteers donate two weeks of their time each year for two years, with support from their zoos, to share their knowledge about polar bears and climate change with tourists on board nearly 60 Tundra Buggy tours each year.

The Official

# Tundra Buggy

Established in 1979, it was the creation of the original tundra vehicle, the Tundra Buggy, that ignited adventuring amongst polar bears in Churchill. Today, Frontiers North carries on that spirit of leading the way.

Specially designed for the northern landscape, these all-terrain vehicles enable us to take guests to the best locations in the Churchill area to safely experience wildlife and the phenomenal northern lights. No other company can boast the extensive and exclusive access that Frontiers North has.

Venturing on a network of established trails in the Churchill Wildlife Management Area (summer and autumn) and the frozen tidal flats of Cape Churchill in Wapusk National Park (late autumn), the Tundra Buggy

takes our guests to the heart of polar bear country, where bears and other arctic wildlife roam. During the winter, we are the only company to travel across the frozen Churchill River, far from the lights of town, to the Thanadelthur Lounge to view the incredible northern lights.

Frontiers North Adventures holds the most permits to operate in these protected areas, offering our guests superior access to the amazing northern landscape and wildlife.

17

The number of Tundra Buggies in our fleet.

12

The number of permits held by Frontiers North to travel on the trail network in the Churchill Wildlife Management Area (CWMA). There are 18 in total.

33

The number of kilometres of trails in the CWMA (20 mi).

45

The number of kilometres of trails Frontiers North has access to including the CWMA and Wapusk National Park (28 mi).

# The Tundra Buggy Lodge

The Tundra Buggy Lodge, located in the heart of polar bear country, offers a unique, immersive experience where guests can fall asleep and wake up with polar bears right outside their window. Situated far from town within the Churchill Wildlife Management Area (CWMA), the lodge is also an optimal spot for northern lights viewing opportunities at night.

Our Tundra Buggy Lodge consists of two accommodation units, a lounge with skylights and a rooftop observation deck, a dining hall and staff quarters. Outdoor viewing platforms connect each unit and allow for outdoor photography.

For more information about the amenities offered at the Tundra Buggy Lodge visit [frontiersnorth.com/tundra-buggy-lodge](http://frontiersnorth.com/tundra-buggy-lodge)

## It's All About Location

The benefit of a lodge on wheels is that we can provide the best viewing access for our guests by positioning the Tundra Buggy Lodge in different locations throughout the seasons.

### Polar Bear Point (early autumn)

During the early autumn, the Tundra Buggy Lodge is located at Polar Bear Point, on the coast of the Hudson Bay inside the CWMA. It is around this area that we see the highest density of polar bears in October and early November as they await the freezing of the bay.

© SIMON GEE/CANUMIMAGES.COM

© JESSICA FINN

### Cape Churchill (late autumn)

At the end of the autumn season, we move the Tundra Buggy Lodge to Cape Churchill in Wapusk National Park, conditions permitting. At Cape Churchill, we tend to see more males, as well as family groups of moms and cubs. Frontiers North is the only company permitted to host guests overnight in Wapusk National Park and we only offer one departure in this area per year.

### Munck's Ring (mid-winter)

In February and March, during peak northern lights season, we transport our guests by Tundra Buggy across the frozen Churchill River to our exclusive Thanadelthur Lounge. Positioned at Munck's Ring, a historically significant spot along the Churchill River, the lounge is far from the lights of town for optimal northern light viewing. Guests can view the dancing skies through panoramic windows and skylights, climb onto the rooftop observation deck for a completely unobstructed view or descend directly onto the river to watch and photograph the lights from below, weather permitting. # Choose your Adventure...

What is your travel type? Frontiers North's adventure levels are based on the capacity, length and inclusions of each tour, allowing us to cater to different types of travellers. Finding your ideal adventure starts here!

# Wildlife Guide

The province of Manitoba is home to a multitude of incredible creatures, making it the perfect place for a truly Canadian wildlife experience. Here are just a handful of the animals you could see when you travel with us.

**POLAR BEAR** There are approximately 1,000 polar bears in the Western Hudson Bay population, and the Churchill Wildlife Management Area (CWMA) hosts the largest concentration of bears in the area. Here bears spend their days lazing on the coast, sparring and playing as they await the forming of their sea ice hunting ground.

**BELUGA WHALE** There are approximately 55,000 beluga whales in the Hudson Bay population. An estimated 3,000 beluga whales spend their summer in the warm, fresh water of the Churchill River, giving birth and feeding on small fish. Belugas, known as the “canaries of the sea”, are natural mimics and emit squeaks, pops, whistles and chirps in order to communicate with other whales around them.

**ARCTIC FOX** Arctic fox can be seen in the CWMA during both the summer and the autumn, but have a habit of changing their colour to suit the season. In the summer their fur is brownish-grey, and in the autumn and winter their fur turns white to blend into their snowy surroundings.

**RED FOX** A variety of colour variations exist within the red fox population in the Churchill area. While the best known is perhaps the well known reddish hue, a cross fox is a colour variant which has a long dark stripe running down its back, intersecting another stripe to form a cross over the shoulders. A silver fox is yet another colour variation which tends to be mostly black or blue-grey with a white tip on its tail.

**BISON** Riding Mountain National Park (RMNP) is home to the Lake Audy Bison Enclosure, which houses a captive herd of 40 plains bison. Once near extinction in the area due to hunting, this herd’s reintroduction into the area is the first step in restoring and protecting the prairie ecosystem.

**BLACK BEAR** Widely considered one of the top black bear destinations in North America, Manitoba is home to dense black bear populations throughout the majority of its regions, including RMNP. Despite their name, black bears are not always black – they can also be light brown, blond or even grey-blue.

**MOOSE** An enduring symbol of the Canadian outdoors, moose are plentiful in RMNP. The park’s moose population is estimated at roughly 3,000 individuals. Moose calves are generally born in the spring, so at the peak of the summer season these leggy youngsters can be expected to weigh 240 lbs at just three months of age!

# Join the *Adventure*

## Dine beneath the northern lights

Imagine crossing the frozen Churchill River as the lights of town gently fade in the distance. As you approach the opposite snow-steeped bank, you notice a new glow, like a beacon lighting your way. It's -35 degrees Celsius and as you step outside the Tundra Buggy the crisp air threatens to bite your cheeks but is just as quickly forgotten as you enter your warm, safe haven for the evening: a one-of-a-kind, pop-up restaurant.

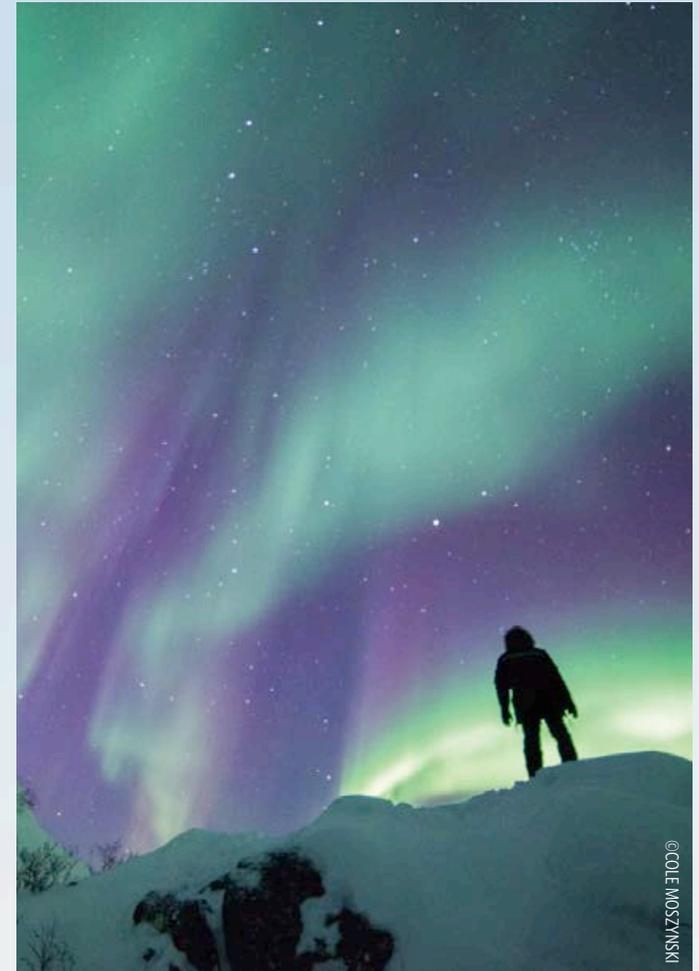

The panoramic windows and skylights overhead offer a nearly unobstructed view of the snow and skylines around you. The atmosphere is warm and welcoming, filled with delicious aromas and the sound of clinking glasses. Your hosts set the first course before you, part of a meticulously curated menu inspired by this storied place, featuring regional delicacies from land and sea.

As the evening sky envelops the landscape in darkness, faint streaks of green begin to stretch up from the horizon. The brightening curtain of light begins to move as in a crescendo and the northern lights snap to life. The din of conversation fades as the breathtaking aurora borealis dazzles above.

Welcome to Dan's Diner, a remote culinary adventure like no other.

Join us on a Northern Lights and Winter Nights experience for your chance to dine under the dancing aurora borealis at this unique pop-up restaurant on the edge of the ice-covered Churchill River.

*Learn more about this adventure on page 17.*

## NEW Riding Mountain Adventure

Frontiers North is happy to announce our brand new Riding Mountain Adventure launching in 2019!

Travel overland through the changing landscapes of Manitoba and get to know the wild side of Riding Mountain National Park, home to bison, black bear, moose and so much more. Not only will you enjoy daily wildlife safaris, but you will also have the chance to get to know the charming resort town of Wasagaming, located along the stunning shores of Clear Lake. Don't miss out on the rugged beauty of this Manitoba gem.

*Learn more about this adventure on page 19.*

## Explore Manitoba's parks and protected areas

Manitoba is a province of many ecosystems, ranging from the wide, open prairies to rolling boreal forests and the vast tundra of the North. Explore this beautiful province with Frontiers North, the only company that offers adventures in Manitoba's two national parks and the protected Churchill Wildlife Management Area

**Riding Mountain National Park** sits atop the Manitoba Escarpment and is home to rolling valleys, deep gorges and numerous rivers and lakes. This area sits at the convergence of three ecosystems - the grasslands, upland boreal and eastern deciduous forests - and is home to moose, black bears and a captive bison herd, as well as wolves, elk, lynx and hundreds of bird species.

**Wapusk National Park** lies in an area of transition between boreal forest and arctic tundra, and is one of the world's largest known polar bear maternity denning areas. Within the borders of the park you will find over 44 mammal species, more than 250 species of birds and the Cape Churchill caribou herd with a population of roughly 3,000 caribou. Frontiers North is the only tour company in the world with a business license to host guests overnight in the park for our Polar Bears at Legendary Cape Churchill Expedition.

**Churchill Wildlife Management Area** (CWMA), the province's largest protected area at 850,000 hectares, is the summer and autumn resting area of annual polar bear visitors, as well as a wide variety of plants, birds and other northern wildlife. Situated along the coast of the Hudson Bay, it is at the intersection of three distinct ecosystems: arctic marine, subarctic tundra and boreal forest.

# Winter in Churchill

Located directly beneath the auroral oval, Churchill is one of the best places on Earth to witness the awe-inspiring northern lights. Long, dark winter nights provide the perfect setting for northern lights photography.

Travellers visiting Churchill in the winter enjoy outdoor activities such as dog sledding and snowshoeing through the boreal forest. In the evenings, adventurers board a Tundra Buggy and head far away from the lights of town to view the aurora borealis in all its glory from the warmth and comfort of the Thanadelthur Lounge.

Average Temperature:

# -24°

-27° C to -20° C  
(-13° F to -3° F)

Average Hours of Daylight:

# 14 hours

8 to 13 hours/day

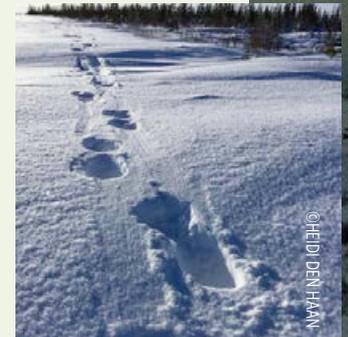

When to go:

# FEBRUARY MARCH

## 5 things we love about winter

1. Laying down on the frozen Churchill River as the northern lights dance above.
2. The crunch of the snow beneath our snowshoes as we explore the boreal forest.
3. Holding a warm mug of hot cocoa after an exciting dog sled ride.
4. The breathtaking view of ice stretching endlessly across the frozen Hudson Bay.
5. When the sun's rays hit the ice crystals in the air just right, creating beautiful "sun dogs".

©MIKE GERE

# Northern Lights and Winter Nights

February & March

Churchill is located directly beneath the auroral oval making this northern town one of the best places on Earth to witness the awe-inspiring Northern Lights.

Frontiers North's Northern Lights and Winter Nights adventure, led by an experienced Interpretive Guide, offers you the opportunity to capture this incredible night-sky phenomenon from the tundra, surrounded by the beautiful northern landscape with access to the warmth and comfort of the Thanadelthur Lounge.

Your adventure begins in Winnipeg with a northern lights program, interactive workshop and private guided tour of the Manitoba Museum and Planetarium. Then, travel to Churchill to experience the history and culture of this unique northern community with an afternoon of snowshoeing over snow-covered precambrian rock and an exhilarating dog sled ride through the boreal forest.

As the evening sky envelops the tundra in darkness each night, you will travel across the Churchill River by Tundra Buggy to the Thanadelthur Lounge where you can look to the sky and watch for the heavens to put on a dazzling grand finale.

This departure can be experienced at the

# Summer in Churchill

Churchill in the summer is a beautiful thing: beluga whales by the thousands, hundreds of migratory bird species, a veritable rainbow of flowers in full bloom and, yes, even the possibility of seeing polar bears.

You can experience Churchill's beluga whales in a variety of ways: boat or Zodiac tour, self-propelled kayak, or get a closer look right on the water on a paddleboarding adventure. On land you can peruse the cultural museums, experience dog carting and explore the colourful flora and amazing fauna of the Churchill Wildlife Management Area on a Tundra Buggy adventure.

## 5 things we love about summer

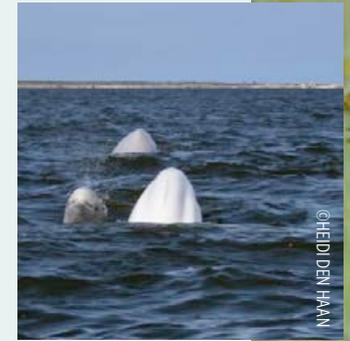

1. The incredible variety of colourful flowers and delicious berries that cover the tundra landscape.
2. The chance to see adorable arctic fox kits emerge from their den to play.
3. Fat, healthy polar bears rolling in the cool waters of the Hudson Bay.
4. Small, grey baby beluga whales swimming alongside their moms in the Churchill River.
5. Exploring the history of Prince of Wales Fort National Historic site which only has tours at this time of year.

Average Temperature:

# 11°

10° C to 12° C  
(51° F to 54° F)

Average Hours of Daylight:

# 16 hours

14 to 18 hours/day

When to go:

# JULY AUGUST

## Riding Mountain Adventure

July & August

Riding Mountain National Park (RMNP) is a diverse and enthralling wilderness that is home to some of Manitoba and Canada's most iconic wildlife.

This 3,000 sq. km. park atop the Manitoba Escarpment protects three ecosystems: the grasslands, upland boreal and eastern deciduous forests. Home to rolling valleys as well as numerous rivers and lakes, the park is renowned for its stunning landscapes and pristine waterways, particularly the sandy beaches of Clear Lake.

Embark on daily safari drives in search of black bear, moose, wolf, lynx, deer and other Canadian wildlife. Visit the Lake Audy bison enclosure, home to a captive herd of 40 plains bison, and learn about the reintroduction of these once absent mammals into their native prairie land.

Get to know the charming town of Wasagaming located on the south shore of Clear Lake on a picturesque walk, where you can explore provincial heritage sites, shops and restaurants.

This departure can be experienced at the

# Frontiers North's Big Five Safari

July & August

Experience the spectacular wildlife of Manitoba with an adventure from the dense forest of Riding Mountain National Park, to the colourful tundra of Churchill. Our one-of-a-kind Big Five Safari is a salute to the incredible array of megafauna that populate the forests, prairies, tundra and waters of this beautiful province.

Your journey begins in Winnipeg, the geographic centre of North America. Travel overland to Riding Mountain National Park where the boreal forest, meadows and lakes, lofty heights and deep gorges of the Manitoba Escarpment are home to moose, black bears, a captive bison herd and more. Enjoy daily wildlife drives to photograph the amazing wildlife and landscapes of the area.

Next, fly north to Churchill, where the boreal forest gives way to the rugged tundra and northern waterways. Set out by boat and Zodiac amongst inquisitive beluga whales and explore the Churchill Wildlife Management Area in search of the majestic polar bear.

This departure can be experienced at the

# Summer Family Adventure

July & August

Embark on a spectacular family vacation during Churchill's annual beluga whale migration, when the summer landscape is bursting with colourful blooms and the wildlife of the North are soaking in the summer sun.

Spend time on the water amongst the curious and friendly beluga whales aboard a whale watching boat, then get close and personal on a Zodiac tour. You will also explore the tundra on an official Tundra Buggy adventure through the Churchill Wildlife Management Area, where a multitude of northern flora and fauna may be seen. You might even have the opportunity to see the first of the summer polar bears as they begin their migration into the area.

Other activities include an exhilarating dog cart excursion through the boreal forest and interactive, family-friendly programming from Parks Canada and the Canadian Junior Rangers.

This departure can be experienced at the

# Belugas, Bears and Blooms

July & August

Summer is the perfect time to visit Churchill. During the months of July and August, the Churchill River is teeming with beluga whales who migrate into the warm, shallow waters to give birth and feed on fish. Known as the “canaries of the sea”, these friendly and inquisitive creatures will capture your heart as you enjoy their whale song by boat and Zodiac or, for the more adventurous, in the water with a kayak, or stand-up paddleboard adventure.

While on land, enjoy the view as the surrounding landscape erupts into colourful summer blooms. You will experience a dog carting excursion with a professional musher on a mile-long trek through the boreal forest and explore the Churchill Wildlife Management Area by Tundra Buggy for the chance see a multitude of northern wildlife. You might even have the opportunity to see the first of the summer polar bears as they begin their migration into the area.

This departure can be experienced at the

# Autumn in Churchill

It's all about the polar bears during autumn in Churchill. Enjoy the beautiful colours of autumn on the tundra in October or visit in November to see the Hudson Bay coast draped in ice and snow.

Our autumn Tundra Buggy excursions offer guests the unique opportunity to explore where polar bears and other arctic wildlife roam. These excursions are the best and safest way to view the majestic polar bear in its natural environment. Guests travelling to Churchill in the autumn also enjoy cultural components such as dog sledding and museum visits.

## 5 things we love about autumn in Churchill

1. The excitement of experiencing arctic wildlife for the first time.
2. The joy of spotting a camouflaged arctic critter hidden amongst the willows and rocks of the tundra.
3. Experiencing the transformation of the landscape from the warm, autumnal tones of October to the cool, wintry whites of November.
4. Sharing in Canada's North with new friends from all over the world.
5. Watching a polar bear lumber across the tundra, backlit by the warm glow of a Manitoba sunset.

## Polar Bears at Legendary Cape Churchill

November

Experience a unique adventure in a place like no other. This expedition, exclusive to Frontiers North and offered just once a year, offers an immersive experience at Cape Churchill in Wapusk National Park, world-renowned as the best location on Earth to view and photograph polar bears in the wild.

Partake in daily Tundra Buggy excursions to view and capture breathtaking photographs of polar bears, other arctic wildlife and the magnificently pristine landscape of Wapusk National Park.

Spend your evenings at the Tundra Buggy Lodge, a warm haven where you can relax, mingle and swap stories with other international visitors and enjoy delicious regional cuisine. You are also invited to join our Photo Resource for a photography workshop and hands-on learning, and exclusive, evening presentations hosted by Polar Bears International species experts.

This departure can be experienced at the

Learn more on page 12.

This adventure is the ultimate polar bear viewing and photography expedition. Space is limited; reserve early. See available dates on page 37.

Call us Toll Free in North America at **1-800-663-9832**  
or International at **1-204-949-2050** or visit [frontiersnorth.com](http://frontiersnorth.com)

# Conservation Journey: Polar Bears

Early November

This exclusive tour, offered just once a year, combines education and adventure to create a unique opportunity to experience the heart of polar bear country with a leading polar bear scientist.

Learn about polar bear conservation and awareness from a Polar Bears International scientist. Come face-to-face with polar bears in their natural habitat and go behind the scenes on Tundra Buggy One, a mobile broadcast and research station, and the centre of operations for our polar bear cams, broadcast live at [explore.org](http://explore.org).

Frontiers North's Conservation Journey: Polar Bears brings you into the Churchill Wildlife Management Area, where the highest concentration of polar bears can be found. This departure includes time on the tundra with a knowledgeable Interpretive Guide and evenings at the Tundra Buggy Lodge, learning about how we can work together to help save polar bear habitat.

Join us to see firsthand the work that's being done and learn how you, too, can help preserve polar bear habitat for generations to come.

*A portion of the proceeds of this trip will be provided to Polar Bears International in support of its programs and conservation efforts.*

This departure can be experienced at the

# Tundra Buggy Lodge at Polar Bear Point

October & November

Frontiers North's Tundra Buggy Lodge is located at Polar Bear Point in the Churchill Wildlife Management Area, home to the largest concentration of polar bears in the Churchill area. The lodge offers a unique, immersive experience where, when conditions are right, you can view the dance of the northern lights from the rooftop observation deck and fall asleep with polar bears right outside your window.

Daily Tundra Buggy excursions take you beyond the lodge for plenty of photography opportunities. Evenings at the lodge can be just as memorable, with delectable, regional dishes created by your private lodge chef and ample time to swap stories with other guests and enjoy world-class meals. As a guest at the Tundra Buggy Lodge, you are also invited to enjoy exclusive evening presentations hosted by Polar Bears International species experts and our knowledgeable Interpretive Guides.

This departure can be experienced at the

**ENTHUSIAST LEVEL**

**SPECIALIST LEVEL**

This immersive adventure will maximize your wildlife viewing opportunities in the Churchill Wildlife Management Area. See available dates on page 37.

# Autumn Family Adventure

October

Experience the amazing beauty and wildlife of Canada's North on a spectacular family-friendly adventure that showcases the best of Churchill in polar bear season.

Explore the tundra aboard an official Tundra Buggy safari in the Churchill Wildlife Management Area, where polar bears await the freezing of the Hudson Bay. Families will have plenty of opportunities to watch these majestic mammals and other arctic wildlife in their natural environment.

Other activities include an exhilarating dog sled excursion through the boreal forest and interactive, family-friendly programming from Parks Canada and the Canadian Junior Rangers. Your family members will also have the unique opportunity to become citizen scientists with Field Ambassadors from Polar Bears International.

This departure can be experienced at the

Learn more on page 12.

Frontiers North's Autumn Family Adventure is sure to thrill travellers of all ages, with specialized programming for children age 12 and under. See available dates on page 37.

## Churchill Town and Tundra Experience

October & November

This Churchill hotel-based adventure will allow you to experience the excitement of polar bear viewing from a Tundra Buggy, as well as enjoy the eclectic charm of this remote northern town.

The Churchill Town and Tundra Experience includes full-day Tundra Buggy safaris in the Churchill Wildlife Management Area, where polar bears await the freezing of the Hudson Bay. You will have plenty of opportunity to watch these majestic mammals and other arctic wildlife in their natural environment.

Discover Churchill's personality by exploring unique shops, family-run restaurants boasting delicious regional cuisine and museums that portray the natural, cultural and historical importance of the area.

This departure can be experienced at the

**ADVENTURER  
LEVEL**

**ENTHUSIAST  
LEVEL**

This classic adventure is the best way to experience the culture of the town of Churchill as well as polar bear viewing in the Churchill Wildlife Management Area. See available dates on page 36.

# Add To Your Adventure

All add-on experiences are season permitting and subject to availability. For more information, talk to one of our Adventure Planners today!

1. Helicopter Tours
2. Paddleboarding
3. Dogsledding
4. Kayaking

## Winnipeg Hotel

Extend your stay in Winnipeg to see all that our wonderful city has to offer. We are happy to book your additional Winnipeg hotel nights before or after your Churchill adventure.

## Cold Weather Gear Rental

If you are visiting Churchill and don't own (or don't want to transport) a parka, snow pants and winter boots, we can help! We are pleased to offer our guests outstanding Canada Goose parkas and snow pants, and Baffin boots through our Gear Rental Program.

[frontiersnorth.com/gear-rental](http://frontiersnorth.com/gear-rental)

## Dog Sledding or Dog Carting

Feel the exhilaration of a dog sled or dog cart excursion through the boreal forest. Get close to the earth and into the elements as you travel with an experienced, northern dog team through the boreal forest in Churchill.

## Helicopter tour

Experience the majesty of Canada's large ecosystem on an hour-long helicopter tour over the desert-like tundra and northern boreal forest. Fly over the Churchill Wildlife Management Area and Wapusk National Park in search of northern wildlife including polar bears, moose, ringed seals, caribou and arctic fox.

## Kayaking

Kayak in the Churchill River estuary where beluga whales can seek you out and swim by for a closer look. This adventure is great for all levels of paddlers and no experience is necessary; a Zodiac boat with an experienced driver will be nearby at all times.

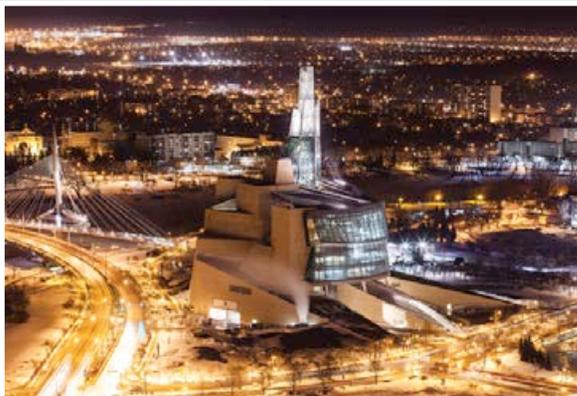

## Paddleboarding

Feel the ebb and flow of the Churchill River beneath your feet on a beluga whale experience you will find nowhere else. Paddleboarding offers the opportunity to get right on the water and can be enjoyed standing or sitting. Let the belugas lead the way as you explore the river estuary on this unique and fun activity.

---

# Extend Your Stay

Winnipeg, our gateway city to Churchill, is a vibrant and welcoming community with plenty of additional activities to experience. Below are some of our favourites.

## FortWhyte Alive

An award-winning destination for incredible outdoor experiences, FortWhyte's interpretive centre and trails are located on 640 acres of protected, urban greenspace.

[fortwhyte.org](http://fortwhyte.org)

## Canadian Museum for Human Rights

The first national museum dedicated to the evolution, celebration and future of human rights, and a hub for conversation, this is the first national museum built outside Ottawa, our nation's capital.

[humanrights.ca](http://humanrights.ca)

## The Manitoba Museum

Renowned for its combined human and natural heritage themes, the museum is also home to one of Canada's most important historic collections, the Hudson Bay Company Collection.

[manitobamuseum.ca](http://manitobamuseum.ca)

## Royal Canadian Mint

With original designs crafted by Canadian artists, the Mint produces some of the world's most stunning collectible coins.

[mint.ca](http://mint.ca)

## Assiniboine Park Zoo

Home to a 10-acre arctic and northern species exhibit that is the only project of its kind in Canada, and with close to 200 different animal species in all, you are sure to make some new discoveries at the zoo.

[assiniboineparkzoo.ca](http://assiniboineparkzoo.ca)

## Winnipeg Art Gallery

Manitoba's leading art museum and Canada's oldest civic art gallery holds over 27,000 artworks spanning centuries and civilizations, including the world's largest public collection of contemporary Inuit art.

[wag.ca](http://wag.ca)

# Grizzly Bears Of The Great Bear Rainforest

May to October

Take a glimpse into the daily lives of the grizzly bear and other magnificent wildlife as you explore the coastal areas of the Great Bear Rainforest in British Columbia. This lodge-based adventure features daily boat excursions and interpretive hikes in this remote and beautiful area, renowned for its vast array of wildlife.

## Spring (May to June)

Bear witness to grizzly bears as they graze on sedge along the river's edge after emerging from their mountain dens. Spring is also host to a variety of birds, such as the bald eagle, waterfowl and songbirds.

## Summer (July to August)

Float quietly along the estuary sloughs to observe the bears, birds and other animals that inhabit the area. If you're lucky, you may catch a glimpse of a humpback whale from the lodge or hear the hauntingly beautiful calls of the rainforest wolves.

## Autumn (August to October)

In mid-August, salmon begin to return to the river estuaries by the thousands. Watch from enclosed viewing stands along the riverbank as bears gorge themselves in preparation for winter.

This departure can be experienced at the

Learn more on page 12.

Witness the daily life of the magnificent grizzly bear on this Canadian west-coast adventure.

See available dates on page 38.

# Arctic Expedition Cruises

August to October

Explore the pristine arctic waters aboard an expedition-class cruise ship. These ship-based adventures will transport you to virtually untouched landscapes where wildlife reigns supreme.

## Out of the Northwest Passage

The Northwest Passage remains one of the world's last true frontiers and this expedition takes you to its heart. In Canada's vast northern wilderness, wildlife roams freely and the great geological forces that shape our planet can be seen.

## Greenland and Wild Labrador

Explore the remote reaches of Newfoundland and Labrador in full summer bloom, and the natural landscape of Greenland, an area distinguished by jaw-dropping beauty and rich biodiversity.

## High Arctic Explorer

Visit the mythic far reaches of the Arctic at the height of summer, where the Inuit homelands lie. Journey in comfort between Qausuittuq (Resolute Bay), Nunavut to Kangerlussuaq, Greenland.

## Into the Northwest Passage

To sail the Northwest Passage is to sail through living history and the haunting landscapes that have enchanted explorers for centuries. In the fierce and untamable wilds lie a stark beauty and the wild, remote reaches of the North have a power that is all their own.

This departure can be experienced at the

Learn more on page 12.

Explore the arctic waters as you've never dreamed possible aboard an expedition class cruise ship.

# Travelling with a group? We can help!

Frontiers North has a long history of tailoring tours to suit our clients' needs. Let us create a custom adventure for your group.

We can accommodate all group sizes, from a small photography club to large alumni organizations and everything in between. Ask about opportunities to kayak with beluga whales, explore the tundra with polar bear species experts from Polar Bears International, hike in the footsteps of early explorers or sleep in the heart of polar bear country.

Some of the groups we've teamed up with include: Beakerhead, Chief Executives Organization, Coca-Cola, Canada Goose, Olivia Travel and the San Diego Zoo.

1. Fun family travel
2. Capturing memories
3. The perfect group shot
4. Fun in Churchill
5. Making new friends

# Important Booking Information

**IMPORTANT INFORMATION** Itineraries are intended as examples only. Actual itineraries may vary depending upon weather, wildlife habits, contract service providers, logistical decisions of the tour leader and logistics manager, and forces beyond our control. Visitors must be prepared to be flexible; schedules may vary depending on conditions.

**RESERVATIONS** To reserve your adventure in Canada's north, please call us at 1-800-663-9832 or 1-204-949-2050 to check availability for the dates you are interested in. We accept payment by VISA, MasterCard, AMEX, Discover card, or bank transfer. Many trips fill up 6 to 12 months in advance. We suggest you reserve your space early.

**SINGLE SUPPLEMENT** Tour prices are based on double occupancy. If you are travelling alone and would like us to arrange a suitable roommate for you on the trip, we will make every effort to do so. If a roommate is not available, or you wish single accommodations (where available), we must charge a Single Supplement that reflects additional costs we incur for a singly occupied room. Please contact an Adventure Planner for further details.

**DEPOSIT POLICY** At time of booking: \$750 CAD per person. Full payment is due 120 days prior to departure.

**CANCELLATION & REFUND POLICY** This applies to all tours, unless otherwise noted on individual itineraries. In the event that you must cancel your reservation, refunds will be made according to the following schedule: Deposit: \$500 CAD per person is non-refundable. 120 to 61 days prior to departure, 50% of total invoice is non-refundable. Less than 61 days prior to departure, 100% of total invoice is non-refundable. No refunds are available for charter flights that are included in the itineraries. No partial refunds or credits will be given for services not used.

**INSURANCE** We strongly recommend trip cancellation and medical evacuation insurance. Because many advance logistical arrangements have been made prior to the operation of these trips, we must strictly adhere to the above cancellation policy. In addition, you should be aware that some medical insurance policies do not cover your expenses, including medical evacuation while travelling in a foreign country. Insurance is 100% non-refundable. Frontiers North Adventures will not be held responsible for missed connections, incorrect check-in times, improper documentation, and/or lost, stolen or damaged luggage. Any additional expenses caused by late or cancelled transportation carriers will be borne by the traveller.

**PRIVACY STATEMENT** We at Frontiers North Inc. and Tundra Buggy Tours Ltd. respect your privacy. Read our complete privacy policy at [www.frontiersnorth.com/content/privacy-policy](http://www.frontiersnorth.com/content/privacy-policy). If you have any questions or concerns, please contact our privacy officer at 1-204-949-2050 or e-mail [privacy@frontiersnorth.com](mailto:privacy@frontiersnorth.com).

# #FINDTRUENORTH

For centuries Polaris, the North Star, has depicted true north, a navigational reference for adventure-seeking explorers in their expeditions across the often-peritous oceans. Our True North is an unwavering love for Canada's North: the extraordinary wildlife, the incredible landscapes, and the remarkable people and their customs. We consider it a privilege to share this awe-inspiring land with visitors from around the world.

Find your True North on an authentic experience with Frontiers North Adventures.
