Where We Travel Matters

With over 30 years experience leading wildlife adventures, we've learned a thing or two about selecting destinations that we believe represent the incredible beauty of Canada and the North.

Travelling into these extraordinary corners, we take our guests into areas where wildlife, culture and history come alive and the stunning landscapes leave an impression that will not be forgotten.

Churchill Wildlife Management Area

Situated along the coast of the Hudson Bay, the Churchill Wildlife Management Area (CWMA) is at the intersection of three distinct eco-zones: arctic marine, subarctic tundra and boreal forest. Hop aboard an official Tundra Buggy as it takes you to Polar Bear Point at the heart of the CWMA. Polar Bear Point lies directly within the migratory path of one of the largest polar bear populations in the world. Learn more about adventures including a Tundra Buggy excursion on pages 11-26.

Wapusk National Park

Wapusk National Park lies in an area of transition between boreal forest and subarctic tundra, and is one of the world's largest known polar bear maternity denning areas. Within the borders of the park you will find over 44 mammal species, more than 250 species of birds and the Cape Churchill caribou herd with a population of roughly 3,000 caribou. Frontiers North is the only tour operator in the world with a license to host guests overnight in this incredible place where polar bears await the freezing of Hudson Bay. Learn more about Cape Churchill on page 24.

Riding Mountain National Park

Explore the bold boreal forests, expanses of meadows and lakes, lofty heights and deep gorges of the Manitoba escarpment. Home to moose, black bear, a captive bison herd and other incredible wildlife, Riding Mountain National Park shows off Manitoba's wild side. Learn more about our adventures in the area on pages 16-17.

Great Bear Rainforest

An emerging destination for wildlife viewing and ecotourism, there are no roads to this rugged coastline on Canada's west coast. Home to bears, wolves and whales, enjoy exploring one of Earth's last great wild places on foot and by boat, taking in its culture and natural history along the way. This place of spectacular beauty is home to Great Bear Lodge, a fully self-contained floating lodge situated in an outstanding wildlife viewing location. Learn more about this incredible experience on page 29.

Northwest Passage

For centuries, the Northwest Passage has been thought of as a pinnacle of northern exploration. Even today, few venture into this remote route through Canada's Arctic. The passage takes you along the shores of islands sparse in human inhabitants but teeming with wildlife and natural wonders. Learn more about this incredible journey cruising through Canada's North on page 30.

Why Frontiers North Adventures

WE ARE TOURISM LEADERS

We are an award-winning and internationally known leader in Canada's eco-tourism industry and have been recognized by the Tourism Industry Association of Canada as one of the top three sustainable tourism operators in Canada. We are proud that our Frontiers North Tundra Buggy Adventure was hailed as a quintessential Canadian tourism experience by Destination Canada, and was awarded Signature Experience status.

PASSIONATE, PROFESSIONAL GUIDES

Our world-class guides and drivers offer a wealth of knowledge and experience. Chosen for their expertise, our enthusiastic and engaging team will make sure you leave having had the adventure of a lifetime.

KEVIN
Tundra Buggy Driver since 1991.

Our purchasing policy ensures **we source local, Indigenous and suppliers that support social and environmental responsibility.**

We donate **2% of pre-tax profits** to social causes.

3,780

By eliminating disposable water bottles from our tours, **we prevent the waste of approximately 3,780 plastic bottles per year.**

EXCLUSIVE ACCESS

We work tirelessly to meet standards set by Manitoba Sustainable Development and Parks Canada, which allows us to take guests into places where only we can go, offering unparalleled experiences. We currently hold the only business license to house guests inside Wapusk National Park; and we also hold the most permits to operate on the Churchill Wildlife Management Area trail network. We have an impeccable safety record and hold all the necessary permits that allow our guests to travel with peace of mind.

98% We're proud to report a 98% satisfaction rate among our guests.

WE'RE COMMITTED TO CONSERVATION AND SUSTAINABILITY

Our commitment to sustainability starts with a deep appreciation of the fragile environments in which we operate, and our good fortune in being afforded rare access to special places we can share it with our guests.

Our approach to social responsibility involves three core areas: Environmental Stewardship, Caring for People and Community Involvement.

PARTNERING WITH POLAR BEARS INTERNATIONAL

Through our exclusive partnership with Polar Bears International, we provide an opportunity for our guests to learn first-hand from species experts who join us on our Tundra Buggies and at our Tundra Buggy Lodge to share their knowledge about arctic wildlife and climate change.

30+ years

FRONTIERS NORTH ADVENTURES is a family-owned and -operated business that has been specializing in adventures to Canada's north for over 30 years. Our programs are designed for guests with specific interests in experiential travel, photography, wildlife, culture and adventure. Since day one, we have built our business working closely with the communities and locals within the communities we visit. It's these relationships that make the difference between a cool vacation and an amazing, authentic and intimate adventure.

Sharing Polar Bears with the World

We bring guests to incredible corners of Canada's North so they can experience firsthand the history, culture and wildlife of a part of the world that not many people will have the chance to see. We take responsibility to not only ensure we are travelling sustainably in these fragile ecosystems, but also to inspire and educate people around the world to be passionate about the North and everyone — and everything — that lives here. It is this responsibility that has fuelled our partnership with Polar Bears International.

Polar Bears International (PBI) is the world's leading polar bear conservation group, dedicated to saving polar bears by saving their habitat. Since 2002, Frontiers North has been a Platinum sponsor of PBI and through this partnership we have collaborated on a number of projects intended to inspire people all over the globe.

DID YOU KNOW?

A portion of your tour cost goes toward Polar Bears International in support of its programs and conservation efforts.

For more information about our partnership with PBI visit frontiersnorth.com/polarbearsinternational

Tundra Buggy One

Tundra Buggy One is a mobile broadcast and research centre we created exclusively for PBI's use. Buggy One is outfitted with tools and equipment that enable polar bear scientists to study bears and broadcast live webcasts and video from the remote tundra, sharing up-to-date information on Churchill's polar bears with audiences around the world.

1.7 mil

views of polar bear content via Tundra Buggy One's live feeds in 2018.

475

guests experienced presentations by PBI's polar bear species experts at our Tundra Buggy Lodge in 2018.

Tundra Buggy Lodge

During October and November, PBI researchers and scientists use Frontiers North's Tundra Buggy Lodge as their in-field headquarters. Guests staying at the Lodge have the chance to meet and mingle with polar bear experts each night and enjoy informative evening presentations.

Tundra Connections®

Every fall, PBI conducts live, free broadcasts — webcasts, live chats, and Google Hangouts on air — from Tundra Buggy One during the polar bear migration in Churchill. Each week focuses on a different theme, tapping into the expertise of guest panelists. Viewers are able to see wild polar bears, meet experts, ask questions and receive answers in real time.

162,579

individuals viewed live Tundra Connections webcasts in 2018, including classrooms (from pre-K to university), zoos and the public.

924

Frontiers North guests met a PBI ambassador on their Tundra Buggy in 2018.

Field Ambassador Program

Each year the PBI Field Ambassador program selects three to four zoo professionals to join their team in Churchill. With support from their zoos, these volunteers donate two weeks each year for two years to share their knowledge about polar bears and climate change with tourists on board nearly 46 Tundra Buggy tours each year.

The Official

Tundra Buggy

Established in 1979, it was the creation of the original tundra vehicle, the Tundra Buggy, that ignited adventuring amongst polar bears in Churchill. Today, Frontiers North carries on that spirit of leading the way.

Specially designed for the northern landscape, these all-terrain vehicles enable us to take guests to the best locations in the Churchill area to safely experience wildlife and the phenomenal northern lights. No other company can boast the extensive and exclusive access that Frontiers North has.

Venturing on a network of established trails in the Churchill Wildlife Management Area (summer and autumn) and the frozen tidal flats of Cape Churchill in Wapusk National Park (late autumn), the Tundra Buggy

takes our guests to the heart of polar bear country, where bears and other subarctic wildlife roam. During the winter, we are the only company to travel across the frozen Churchill River, far from the lights of town, to the Thanadelthur Lounge and Dan's Diner to view the incredible northern lights.

Frontiers North holds the most permits to operate in these protected areas, offering our guests superior access to amazing northern landscapes and wildlife.

17

Tundra Buggies are in our fleet.

12

of 18 permits are held by Frontiers North to travel on the trail network in the Churchill Wildlife Management Area (CWMA).

33

kilometres (20 mi) of trails are in the CWMA.

45

kilometres (28 mi) of trails are accessible to Frontiers North including the CWMA and Wapusk National Park.

45

kilometres per hour (28 mph) is the top speed a Tundra Buggy can reach.

For more information about the official Tundra Buggy visit frontiersnorth.com/the-tundra-buggy-adventure

Wildlife Guide

The province of Manitoba is home to a multitude of incredible creatures, making it the perfect place for a truly Canadian wildlife experience. Here are just a handful of the animals you could see when you travel with us.

POLAR BEAR There are approximately 1,000 polar bears in the Western Hudson Bay population, and the Churchill Wildlife Management Area (CWMA) hosts the largest concentration of bears in the area. Here bears spend their days lazing on the coast, sparring and playing as they await the forming of their sea ice hunting ground.

BELUGA WHALE There are approximately 55,000 beluga whales in the Hudson Bay population. An estimated 4,000 beluga whales spend their summer in the warm, fresh water of the Churchill River, giving birth and feeding on small fish. Belugas, known as the “canaries of the sea”, are natural mimics and emit squeaks, pops, whistles and chirps in order to communicate with other whales around them.

ARCTIC FOX Arctic fox can be seen in the Churchill area year round, but have a habit of changing their colour to suit the season. In the summer their fur is brownish-grey, and in the autumn and winter their fur turns white to blend into their snowy surroundings.

RED FOX A variety of colour variations exist within the red fox population in the Churchill area. While the best known is perhaps the well known reddish hue, a cross fox is a colour variant which has a long dark stripe running down its back, intersecting another stripe to form a cross over the shoulders. A silver fox is yet another colour variation which tends to be mostly black or blue-grey with a white tip on its tail.

BISON Riding Mountain National Park (RMNP) is home to the Lake Audy Bison Enclosure, which houses a captive herd of 40 plains bison. Once near extinction in the area due to hunting, this herd’s reintroduction into the area is the first step in restoring and protecting the prairie ecosystem.

BLACK BEAR Widely considered one of the top black bear destinations in North America, Manitoba is home to dense black bear populations throughout the majority of its regions, including RMNP. Despite their name, black bears are not always black – they can also be light brown, blond or even grey-blue.

MOOSE An enduring symbol of the Canadian outdoors, moose are plentiful in RMNP. The park’s moose population is estimated at roughly 3,000 individuals. Moose calves are generally born in the spring, so at the peak of the summer season these leggy youngsters can be expected to weigh 109 kilograms (240 lbs) at just three months of age!

The Tundra Buggy Lodge

The Tundra Buggy Lodge, located in the heart of polar bear country, offers a unique, immersive experience where guests can fall asleep and wake up with polar bears right outside their window. Situated far from town within the Churchill Wildlife Management Area (CWMA), the lodge is also an optimal spot for northern lights viewing opportunities at night.

Our Tundra Buggy Lodge consists of two accommodation units, a lounge with skylights and a rooftop observation deck, a dining hall and staff quarters. Outdoor viewing platforms connect each unit and allow for outdoor photography.

For more information about the amenities offered at the Tundra Buggy Lodge visit frontiersnorth.com/tundra-buggy-lodge

"Imagine yourself in the middle of nowhere, surrounded by the vast tundra landscape... and polar bears."

1. Sleeping quarters
2. Northern lights above the lounge
3. Seating for supper time
4. Lounging in the evening
5. Welcome to Dan's Diner
6. Bears at play
7. Polar bear at Cape Churchill
8. Rooftop observation deck

It's All About Location

The benefit of a lodge on wheels is that we can provide the best viewing access for our guests by positioning the Tundra Buggy Lodge in different locations throughout the seasons.

Polar Bear Point (early autumn)

During the early autumn, the Tundra Buggy Lodge is located at Polar Bear Point on the coast of the Hudson Bay in the CWMA. It is around this area that we see the highest density of polar bears in October and early November as they await the freezing of the bay.

© SIMON GEE/CANUMAT/GESECO

© JESSICA BURTRICK

Cape Churchill (late autumn)

At the end of the autumn season, conditions permitting, we move the Tundra Buggy Lodge to Cape Churchill in Wapusk National Park, celebrated for its remoteness and access to polar bears in their natural environment. As our most exclusive and prestigious adventure, this tour offers the most breathtaking landscapes and immersive photography experience available. Learn more on page 24.

Munck's Ring and Macri's Meadow (winter)

In February and March, during peak northern lights season, we transport our guests by Tundra Buggy across the frozen Churchill River to our exclusive Thanadelthur Lounge and Dan's Diner, strategically placed in historically significant spots along the riverbank, far from the lights of town for optimal northern lights viewing. Guests can view the dancing skies through panoramic windows and skylights, climb onto the lounge's rooftop observation deck for a completely unobstructed view or descend directly onto the river to watch and photograph the lights from below, weather permitting.

Seasons of Churchill

Many people know that Churchill, Manitoba is the Polar Bear Capital of the World, and that every October and November bears and travellers alike flock to this small northern town located on the coast of the historic Hudson Bay. But what does Churchill have to offer for the rest of the year? **The answer: a lot!**

Choose your Adventure...

What is your travel type? Frontiers North's adventure levels are based on the capacity, length and inclusions of each tour, allowing us to cater to different types of travellers. Finding your ideal adventure starts here!

ADVENTURER Our most flexible and cost-efficient option, these tours include the basics of lodging and transportation, and allow flexibility to add the activities that interest you most. Adventurer-level tours have the largest guest capacity of all our tours, are unescorted and tend to be shorter in length. Look for Adventurer tours from pages 21-29.

ENTHUSIAST Our most well-rounded adventures, these tours include lodging and transportation with a mix of cultural and wildlife viewing activities built in. Enthusiast-level tours are medium-capacity departures led by an Interpretive Guide. So you can sit back and relax; we take care of all the details. Look for Enthusiast tours from pages 17-29.

SPECIALIST Our most exclusive tour offerings, these all-inclusive adventures are best-suited to those who want to maximize their time viewing wildlife to capture the perfect image. Specialist-level tours have a smaller capacity and longer duration, are led by a Photo Specialist guide and forgo most cultural components in favour of more time spent with wildlife. Look for Specialist tours from pages 25-33.

Winter

Located directly beneath the auroral oval, Churchill is one of the best places on Earth to witness the awe-inspiring northern lights. Long, dark winter nights provide the perfect setting for northern lights photography.

Travellers visiting Churchill in the winter enjoy outdoor activities such as dog sledding and snowshoeing through the boreal forest. In the evenings, adventurers board a Tundra Buggy and head far away from the lights of town to view the aurora borealis in all its glory from the comfort of Thandelthur Lounge or Dan's Diner, our remote culinary experience.

 Average temperature:
-24°
-27° C to -20° C
(-13° F to -3° F)

 Average hours of daylight:
14 hours

Northern Lights and Winter Nights

February & March

Churchill is located directly beneath the auroral oval making this northern town one of the best places on Earth to witness the awe-inspiring Northern Lights.

Frontiers North's Northern Lights and Winter Nights adventure, led by an experienced Interpretive Guide, offers you the opportunity to capture this incredible night-sky phenomenon from the tundra, surrounded by the beautiful northern landscape with access to the warmth and comfort of the Thanadelthur Lounge.

Your adventure begins in Winnipeg with a northern lights program, interactive workshop and private guided tour of the Manitoba Museum and Planetarium. Then, travel to Churchill to experience the history and culture of this unique northern community with an afternoon of snowshoeing over snow-covered precambrian rock and an exhilarating dog sled ride through the boreal forest.

As the evening sky envelops the tundra in darkness each night, you will travel across the Churchill River by Tundra Buggy to the Thanadelthur Lounge and Dan's Diner where you can look to the sky and watch for the heavens to put on a dazzling grand finale.

This adventure includes an evening at Dan's Diner, an exclusive culinary experience on the frozen banks of the Churchill River.

Dan's Diner Getaway

February & March

How far are you willing to travel for the ultimate foodie adventure? Journey across the frozen Churchill River to Dan's Diner, our exclusive pop-up restaurant at 58 degrees North.

Our Dan's Diner culinary experience features an authentic Canadian excursion sure to delight all your senses and create memories to last a lifetime! The dynamic menu, meticulously curated by your private chefs for the evening, serve up flavours exclusive to Canada's North. Located directly beneath the auroral oval, Churchill, Manitoba is one of the best places on Earth to experience the breathtaking aurora borealis. Dine on regional delicacies surrounded by panoramic windows and skylights, and enjoy exceptional views of the northern skies and unique tundra landscape.

Your adventure begins in our gateway city of Winnipeg. Venture into the remote Canadian subarctic to travel across the frozen Churchill River by Tundra Buggy into the wilderness. Share a carefully-crafted meal with your fellow travellers in the comfort and warmth of Dan's Diner beneath the extraordinary northern skies. You will soon learn that Dan's Diner is about more than a fantastic dinner: it's an authentically Canadian culinary adventure experience.

The Dan's Diner culinary experience is included in all of our Northern Lights and Winter Nights tours. Learn more on page 12.

Frontiers North's Photo Contest

Every year we host our #FindTrueNorth photo contest and invite guests to submit their favourite images captured on their Frontiers North adventure.

Over the years, we have received many incredible submissions and we're always blown away by the beautiful moments our guests have captured. Below are just a handful of some of our past winners.

For more information about the contest and to see past submissions visit frontiersnorth.com/photo-contest

Photo contest past winners:

Summer

Churchill in the summer is a beautiful thing: beluga whales by the thousands, hundreds of migratory bird species, a veritable rainbow of flowers in full bloom and, yes, even the possibility of seeing polar bears.

You can experience Churchill's beluga whales in a variety of ways: boat or Zodiac tour, self-propelled kayak, or get a closer look right on the water on a paddleboarding adventure. On land you can peruse the cultural museums, experience dog carting and explore the colourful flora and amazing fauna of the Churchill Wildlife Management Area on a Tundra Buggy adventure.

5 things we love about summer

1. The incredible variety of colourful flowers and delicious berries that cover the tundra landscape.
2. The chance to see adorable arctic fox kits emerge from their den to play.
3. Fat, healthy polar bears rolling in the cool waters of the Hudson Bay.
4. Small, grey baby beluga whales swimming alongside their moms in the Churchill River.
5. Exploring the history of Prince of Wales Fort National Historic site which only has tours at this time of year.

Average temperature:
11°
10° C to 12° C
(51° F to 54° F)

Average hours of daylight:
16 hours
14 to 18 hours/day

Riding Mountain Adventure

June, July & August

Riding Mountain National Park (RMNP) is a diverse and enthralling wilderness that is home to some of Manitoba and Canada's most iconic wildlife.

This 3,000 sq. km. park atop the Manitoba Escarpment protects three ecosystems: the grasslands, upland boreal and eastern deciduous forests. Home to rolling valleys as well as numerous rivers and lakes, the park is renowned for its stunning landscapes and pristine waterways, particularly the sandy beaches of Clear Lake.

Embark on daily wildlife safari drives in search of black bear, moose, wolf, lynx, deer and other Canadian wildlife. Visit the Lake Audy Bison Enclosure, home to a captive herd of 40 plains bison, and learn about the reintroduction of these once absent mammals back into their native prairie land.

Get to know the charming town of Wasagaming located on the south shore of Clear Lake on a picturesque walk, where you can explore provincial heritage sites, shops and restaurants.

This departure can be experienced at the

Frontiers North's Big Five Safari

July & August

Experience the spectacular wildlife of Manitoba with an adventure from the dense forest of Riding Mountain National Park, to the colourful tundra of Churchill. Our one-of-a-kind Big Five Safari is a salute to the incredible array of megafauna that populate the forests, prairies, tundra and waters of this beautiful province.

Your journey begins in Winnipeg, the geographic centre of North America. Travel overland to Riding Mountain National Park where the boreal forest, meadows and lakes, lofty heights and deep gorges of the Manitoba Escarpment are home to moose, black bears, a captive bison herd and more. Enjoy daily wildlife drives to photograph the amazing wildlife and landscapes of the area.

Next, fly north to Churchill, where the boreal forest gives way to the rugged tundra and northern waterways. Set out by boat and Zodiac amongst inquisitive beluga whales and explore the Churchill Wildlife Management Area in search of the majestic polar bear.

This departure can be experienced at the

Belugas, Bears and Blooms

July & August

Summer is the perfect time to visit Churchill. During the months of July and August, the Churchill River is teeming with beluga whales who migrate into the warm, shallow waters to give birth and feed on fish. Known as the “canaries of the sea”, these friendly and inquisitive creatures will capture your heart as you enjoy their whale song by boat and Zodiac or, for the more adventurous, in the water with a kayak or stand-up paddleboard adventure.

While on land, enjoy the view as the surrounding landscape erupts into colourful summer blooms. You will experience a dog carting excursion with a professional musher on a mile-long trek through the boreal forest and explore the Churchill Wildlife Management Area by Tundra Buggy for your chance to see a multitude of northern wildlife. You might even have the opportunity to see the first of the summer polar bears as they begin their migration into the area.

Summer Family Adventure

July & August

Create memories that will last a lifetime with a family vacation of epic proportions! Sure to thrill travellers of all ages, our Summer Family Adventure showcases the very best of Churchill with a host of family-friendly activities. This spectacular vacation runs during Churchill's annual beluga whale migration, when the sparkling waters and blooming landscapes are teeming with incredible northern wildlife!

Spend time on the water amongst the curious and friendly beluga whales aboard a whale watching boat, then get up close and personal on a Zodiac tour. You'll cruise up and down the Churchill River with pods of beluga whales swimming alongside you, almost as if they're escorting you! Listen closely, as you may even hear the squeaks and pops of chatty beluga whales communicating with one another. Next, you will explore the colourful tundra landscape on an official Tundra Buggy adventure through the Churchill Wildlife Management Area, where a multitude of northern flora and fauna may be seen. You might even have the opportunity to see the first of the summer polar bears soaking up the sun as they begin their migration into the area!

Other activities include an exhilarating dog cart excursion through the boreal forest and interactive, family-friendly programming from Parks Canada.

Conservation Journey: Beluga Whales

Late July

New in 2020, this exclusive tour combines field education and adventure to create a unique opportunity to experience Churchill's coastal waters with a leading beluga whale researcher and ocean scientist.

Venture into the Churchill River estuary, where thousands of beluga whales migrate into the warm, shallow waters each summer to give birth and feed. Learn about beluga whale biology and ocean health, come face-to-face with beluga whales in their natural habitat and engage with researchers studying the behaviour and vocalizations of Churchill's beluga whales.

Join us to see firsthand the work that is being done and learn how you, too, can help protect beluga whales and our oceans for generations to come.

Partial proceeds from Conservation Journey: Beluga Whales will support Ocean Wise, a global ocean conservation organization.

Autumn

It's all about the polar bears during autumn in Churchill. Enjoy the beautiful colours of autumn on the tundra in October or visit in November to see the Hudson Bay coast draped in ice and snow.

Our autumn Tundra Buggy excursions offer guests the unique opportunity to explore where polar bears and other arctic wildlife roam. These excursions are the best and safest way to view the majestic polar bear in its natural environment. Guests travelling to Churchill in the autumn also enjoy cultural components such as dog sledding and museum visits.

5 things we love about autumn in Churchill

1. The excitement of experiencing arctic wildlife for the first time.
2. The joy of spotting a camouflaged arctic critter hidden amongst the willows and rocks of the tundra.
3. Experiencing the transformation of the landscape from the warm, autumnal tones of October to the cool, wintry whites of November.
4. Sharing in Canada's North with new friends from all over the world.
5. Watching a polar bear lumber across the tundra, backlit by the warm glow of a Manitoba sunset.

Tundra Buggy Lodge at Polar Bear Point

October & November

Frontiers North's Tundra Buggy Lodge is located at Polar Bear Point in the Churchill Wildlife Management Area, home to the largest concentration of polar bears in the Churchill area. The lodge offers a unique, immersive experience where, when conditions are right, you can view the dance of the northern lights from the rooftop observation deck and fall asleep with polar bears right outside your window.

Daily Tundra Buggy excursions take you beyond the lodge for plenty of photography opportunities. Evenings at the lodge can be just as memorable, with delectable, regional dishes created by your private lodge chef and ample time to swap stories with other guests and enjoy regional cuisine. As a guest at the Tundra Buggy Lodge, you are also invited to enjoy exclusive evening presentations hosted by Polar Bears International species experts and our knowledgeable Interpretive Guides.

Conservation Journey: Polar Bears

Early November

This exclusive tour combines education and adventure to create a unique opportunity to experience the heart of polar bear country with a leading polar bear scientist.

Learn about polar bear conservation and awareness from a Polar Bears International scientist. Come face-to-face with polar bears in their natural habitat and go behind the scenes on Tundra Buggy One, a mobile broadcast and research station, and the centre of operations for our polar bear cams, broadcast live at explore.org.

Frontiers North's Conservation Journey: Polar Bears brings you into the Churchill Wildlife Management Area, where the highest concentration of polar bears can be found. This departure includes time on the tundra with a knowledgeable Interpretive Guide and evenings at the Tundra Buggy Lodge, learning about how we can work together to help save polar bear habitat.

Join us to see firsthand the work that's being done and learn how you, too, can help preserve polar bear habitat for generations to come.

A portion of the proceeds of this trip will be provided to Polar Bears International in support of its programs and conservation efforts.

This departure can be experienced at the

This educational adventure is best-suited for individuals with a keen interest in conservation. See available dates on page 33.

40 YEARS OF CAPE CHURCHILL

Polar Bears at Legendary Cape Churchill

November

2020 marks the 40th anniversary of this legendary expedition. Exclusive to Frontiers North, this adventure takes you to Cape Churchill in Wapusk National Park. Celebrated for its remoteness and world-renowned as one of the best locations in the world to view and photograph polar bears, this is the place where polar bear adventures by Tundra Buggy began.

Partake in daily Tundra Buggy excursions for the opportunity to view and capture breathtaking photographs of polar bears, other arctic wildlife and the magnificently pristine landscape of Wapusk National Park.

Spend your evenings at the Tundra Buggy Lodge at Cape Churchill, a warm haven where you can relax, mingle and swap stories with other international visitors and enjoy delicious regional cuisine in polar bear country. You are also invited to join our Photo Resource for a photography workshop and hands-on learning, and exclusive, evening presentations hosted by Polar Bears International species experts.

In the event the tidal flats do not freeze solidly enough for us to safely move the Tundra Buggy Lodge to Wapusk National Park, guests will partake in daily Tundra Buggy excursions east to Cape Churchill for wildlife viewing opportunities, returning to the lodge at Polar Bear Point each evening. Like weather, wildlife is unpredictable. Wildlife sightings are common at this time of year, but not guaranteed.

This departure can be experienced at the

This is our most exclusive, immersive and prestigious photography adventure. Space is limited; reserve early. See available dates on page 33.

Churchill Town and Tundra Experience

October & November

Have the best of both worlds: experience the northern frontier town of Churchill and the wonderful wildlife surrounding it! This hotel-based adventure offers the excitement of polar bear viewing from a Tundra Buggy, and the opportunity to take in the eclectic charm of this remote northern town.

The Churchill Town and Tundra Experience includes two full-day Tundra Buggy safaris in the Churchill Wildlife Management Area (CWMA), where polar bears await the freezing of the Hudson Bay. You will have plenty of opportunity to explore the CWMA for these majestic mammals and other subarctic wildlife in their natural environment.

Indulge in and explore the history and culture of Churchill at the Itsanitah Museum, home to a large collection of Inuit artifacts including traditional carvings and kayaks. Next, take in the Parks Canada Visitor Centre for its in-depth displays revealing the history of Churchill, dating back to the fur trade era and beyond. You can even race through the boreal forest with a local dog musher and team of enthusiastic sled dogs by partaking in the traditional northern sport of dog sledding.

Sitting on the edge of the Hudson Bay, built on deep Indigenous roots and home to Canada's most iconic wildlife, the town of Churchill is a must-visit destination for those who seek an authentic Canadian adventure.

This departure can be experienced at the

Autumn Family Adventure

October

Experience the spectacular beauty and wildlife of Canada's North on a family-friendly adventure that's sure to leave lasting memories. This vacation runs during Churchill's peak polar bear season when bears roam the area as they await the freeze-up of the Hudson Bay. The Western Hudson Bay polar bear population actually outnumbers Churchill's residents!

Explore the wide open landscapes aboard an official Tundra Buggy adventure in the Churchill Wildlife Management Area, home to the most accessible population of polar bears in the world. Watch in amazement as they massively stride across the tundra, sniff the cold air and perhaps even wander in for a closer look! It's a wildlife safari unlike any other, and an experience your family will remember forever. Keep an eye out for other subarctic wildlife such as snowy owl, red fox, arctic fox, willow ptarmigan and arctic hare.

Other activities include an exhilarating dog sled excursion through the boreal forest and interactive, family-friendly programming from Parks Canada. Your family will also have the unique opportunity to become citizen scientists with Field Ambassadors from Polar Bears International.

This departure can be experienced at the

Frontiers North's Autumn Family Adventure is sure to thrill travellers of all ages, with specialized programming for children age 12 and under. See available dates on page 33.

Add To Your Adventure

All add-on experiences are season permitting and subject to availability. For more information, talk to one of our Adventure Planners today!

1. Helicopter Tours
2. Paddleboarding
3. Dog sledding
4. Kayaking

Winnipeg Hotel

Extend your stay in Winnipeg to see all that our wonderful city has to offer. We are happy to book your additional Winnipeg hotel nights before or after your Churchill adventure.

Cold Weather Gear Rental

If you are visiting Churchill and don't own (or don't want to transport) a parka, snow pants and winter boots, we can help! We are pleased to offer our guests outstanding Canada Goose parkas and snow pants, and Baffin boots through our Gear Rental Program.

frontiersnorth.com/gear-rental

Dog Sledding or Dog Carting

Feel the exhilaration of a dog sled or dog cart excursion through the boreal forest with a local musher who provides fascinating interpretation of the sport of dog sledding. Get close to the earth and into the elements as you travel with an experienced, northern dog team through the boreal forest in Churchill!

Helicopter tour

Experience the majesty of Canada's large ecosystem on an hour-long helicopter tour over the desert-like tundra and northern boreal forest. Fly over the Churchill Wildlife Management Area and Wapusk National Park in search of northern wildlife including polar bears, moose, ringed seals, caribou and arctic fox.

Kayaking

Kayak in the Churchill River estuary where beluga whales can seek you out and swim by for a closer look. This adventure is great for all levels of paddlers and no experience is necessary; a Zodiac boat with an experienced driver will be nearby at all times.

Paddleboarding

Feel the ebb and flow of the Churchill River beneath your feet on a beluga whale experience you will find nowhere else. Paddleboarding offers the opportunity to get right on the water and can be enjoyed standing or sitting. Let the belugas lead the way as you explore the river estuary on this unique and fun activity.

Travelling with a group? Our private and custom tours are just for you!

Create an exclusive, fully customized experience with Frontiers North Adventures. We will look after the details so you don't have to!

Personalize your adventure and travel your way with a tailor-made tour. Whether you're planning for your next family reunion, photography club outing or an education-focussed university alumni program, we can create a custom itinerary that suits your specific needs.

Create a thematic experience or immerse your group in the types of activities that are of most interest to you, either by building onto one of our pre-designed itineraries or creating a fully customized tour from the ground up. Ask us about opportunities to dine beneath the northern lights, kayak with beluga whales, explore the tundra with arctic species experts, hike in the footsteps of the early explorers or sleep in the heart of polar bear country.

The level of customization is up to you! You can keep your trip exclusive to just your travellers and choose the travel dates that work best for you. We can even provide one of our professional interpretive guides as your group's dedicated tour leader: we take care of all the details so you don't have to!

Some of the groups we've teamed up with include: Coca-Cola, Canada Goose, Oregon Zoo, Stanford Alumni Association, Beakerhead, Chief Executives Organization, Olivia Travel and more!

Frontiers North has a long history of tailoring tours to suit our clients' needs. Let us create a custom adventure for you!

Grizzly Bears of the Great Bear Rainforest

May to October

Take a glimpse into the daily lives of the grizzly bear and other magnificent wildlife as you explore the coastal areas of the Great Bear Rainforest in British Columbia. This lodge-based adventure features daily boat excursions and interpretive hikes in this remote and beautiful area, renowned for its vast array of wildlife.

Spring (May to June)

Bear witness to grizzly bears as they graze on sedge along the river's edge after emerging from their mountain dens. Spring is also host to a variety of birds, such as the bald eagle, waterfowl and songbirds.

Summer (July to August)

Float quietly along the estuary sloughs to observe the bears, birds and other animals that inhabit the area. If you're lucky, you may catch a glimpse of a humpback whale from the lodge or hear the hauntingly beautiful calls of the rainforest wolves.

Autumn (August to October)

In mid-August, salmon begin to return to the river estuaries by the thousands. Watch from enclosed viewing stands along the riverbank as bears gorge themselves in preparation for winter.

This departure can be experienced at the

Learn more on page 10.

Witness the daily life of the magnificent grizzly bear on this Canadian west-coast adventure. See available dates on page 35.

Arctic Expedition Cruises

August to October

Explore arctic waters aboard an expedition-class cruise ship. These ship-based adventures will transport you to virtually untouched landscapes where the wild reigns supreme.

Out of the Northwest Passage

The Northwest Passage remains one of the world's last true frontiers in Canada's vast northern wilderness, where wildlife roams freely and the great geological forces that shape our planet can be seen.

Greenland and Wild Labrador

Explore the remote reaches of Newfoundland and Labrador in full summer bloom, and the natural landscape of Greenland, an area distinguished by jaw-dropping beauty and rich biodiversity.

High Arctic Explorer

Visit the far reaches of the Arctic at the height of summer, where the Inuit homelands lie. Journey in comfort from Qausuittuq, Nunavut to Kangerlussuaq, Greenland.

Into the Northwest Passage

To journey through the fierce and starkly beautiful Northwest Passage is to relive a piece of history as you encounter the haunting landscapes that enchanted explorers for centuries.

Heart of the Arctic

Explore the deep fjords and vibrant communities of Greenland, meet the Inuit artists in South Baffin Island's communities and explore Nunavik, the Arctic coast of Quebec.

This departure can be experienced at the

In 2015 we introduced Conservation Journey: Polar Bears, a conservation-focussed departure hosted with our partners at Polar Bears International. Since

then, these trips have been very well received by our guests so in 2020 we are growing the franchise, introducing Conservation Journey: Belugas Whales! This new departure will be co-hosted with Ocean Wise, the advocates for healthy oceans. Our Conservation Journeys dedicate a portion of revenues to both Polar Bears International and Ocean Wise.

It was the creation of the original tundra vehicle in 1979, the Tundra Buggy, that ignited adventuring amongst polar bears in Churchill. In October 2015, to elevate our guests' experience, we introduced our first two newly-refurbished touring Tundra Buggies, Buggy 10 and Buggy 12. We stripped the carriages down to aluminum studs and rebuilt them to feature new, marine-grade windows and doors, upgraded insulation, forced-air heating systems and barnwood stylings. Since then, we have refurbished a couple more Tundra Buggies annually and, in October 2019, we rolled out Buggy 16, the last of our touring Tundra Buggies to be refurbished. Specially designed for the northern landscape, these all-terrain vehicles enable us to take our guests to the best locations in the Churchill area to safely experience wildlife and the phenomenal northern lights.

Speaking of our winter northern lights trips, we have been operating these stunning trips for more than two decades! Historically these departures have been longer in duration (as many as seven nights), however in the past few years we have been offering additional shorter-duration opportunities to experience Churchill's northern lights, as well. Our new three-night getaways allow guests to enjoy the opportunity to dine under the northern lights with the flexibility to add those additional activities that interest them most!

Churchill hosts so few guests annually that, when we read articles about overtourism problems around the world, we take note to avoid obvious pitfalls, but know our destination holds — and will continue to hold — tremendous value in the minds of travellers for many, many years. In 2019, Manitoba (the Canadian province in which Churchill is located) was recognized by Lonely Planet as one of the top 10 regions in the world. Whether travelling in winter to dine under the northern lights, summer to kayak amongst curious beluga whales or autumn to lock your gaze with wild polar bears, we understand why and are happy to share it with you.

#FINDTRUENORTH

For centuries Polaris, the North Star, has depicted true north, a navigational reference for adventure-seeking explorers in their expeditions across the often-perilous oceans. Our True North is an unwavering love for Canada's North: the extraordinary wildlife, the incredible landscapes, and the remarkable people and their customs. We consider it a privilege to share this awe-inspiring land with visitors from around the world.

Find your True North on an authentic experience with Frontiers North Adventures.
