

A NEW ERA OF LUXURY EXPEDITION SAILING

Atlas Ocean Voyages was founded on a simple belief: that the most meaningful exploration happens at a more intimate scale, guided by genuine hospitality, thoughtful design, and deep respect for the world we explore.

Atlas has recently evolved, achieving outstanding guest loyalty, expanding its global presence, and confidently establishing its position within the luxury expedition category. As our experience has developed, so has our vision.

Today, Atlas takes its next step forward.

CHART NEW HORIZONS EXPERIENCE THE EXTRAORDINARY

ATLAS ADVENTURER™

A Luxury Expedition Sailing Yacht, Redefined.

Introducing Atlas Adventurer, the first of the Atlas-class luxury expedition sailing yachts. Her name reflects the spirit of exploration that defines every Atlas voyage, a forward-looking vessel that expands the line's reach to new destinations while offering guests

an elevated, immersive experience at sea. Atlas Adventurer embodies the promise of discovery, connection, and thoughtful innovation, carrying the Atlas brand into a new era of luxury expedition cruising.

ATLAS ADVENTURER™

SUSTAINABILITY AND INNOVATION

This new vessel blends cutting-edge design with a deep respect for the natural world. Her Sustainable Dual-Source Propulsion, powered by Wärtsilä engines, works seamlessly with carbon-fiber sails. This selective sail-assisted approach reflects Atlas' philosophy: true luxury is measured not by excess, but by thoughtfully crafted experiences, responsible exploration, and deeper connection to the ocean and the destinations we visit.

Featuring three striking sailing masts, Atlas Adventurer integrates sail-assisted technology that, when conditions

allow, reduces fuel consumption by up to 40 percent, supporting a quieter, more efficient presence at sea.

This is not a departure from modern expedition cruising. It is a refinement of it. A next-generation vessel designed to balance innovation with experience, elegance with performance, and exploration with responsibility.

THE ATLAS-CLASS DESIGN: A REIMAGINED APPROACH TO SPACE, SOPHISTICATION, AND SCALE

As Atlas grows, so does the scale of what we can offer, without compromising intimacy, service, or connection.

Atlas Adventurer, the first ship in the Atlas-class, can accommodate up to 400 guests and is supported by an international crew of 274. It offers a thoughtfully expanded onboard experience, featuring more space, greater options, and enhanced comfort, all while upholding the boutique hospitality that characterizes the brand. Designed for global exploration, Atlas Adventurer is a 26,000-gross-ton luxury expedition sailing yacht spanning

690 feet (210 meters) in length, and featuring methanol-based hybrid propulsion, an air draft of 68.5 meters, and Ice Class 1B (Polar Category C) capability, optimally designed for cruising worldwide destinations.

All accommodations are designated as suites, elevating the standard across every category. Even entry-level suites are larger, while higher categories offer expansive layouts designed for extended voyages and deeper immersion. Each suite reflects Atlas' signature aesthetic: refined, residential, and quietly luxurious.

ACCOMMODATIONS:
LUXURY AT EVERY LEVEL

Atlas Adventurer offers thoughtfully designed suites that combine comfort, elegance, and seamless connection to the sea. Every accommodation reflects the brand’s commitment to space, refinement, and immersive experiences, allowing guests to settle in and feel fully present on their journey.

Each suite is designed with refined, contemporary décor, generous living spaces, and modern amenities to support relaxation, connection, and discovery. From intimate veranda suites to the expansive premium suites, Atlas Adventurer ensures every guest can find a home at sea that suits their journey.

SOCIAL SPACES DESIGNED
FOR CONNECTION

Community and connection are central to the Atlas experience, and Atlas Adventurer introduces an expanded collection of thoughtfully designed gathering spaces. Guests will enjoy five distinct lounges and cocktail bars, each offering a unique

atmosphere, from refined evening settings to relaxed daytime spaces overlooking the sea. These venues encourage conversation, discovery, and shared moments, while maintaining the intimacy that defines life onboard Atlas.

AN EXPANDED
CULINARY EXPERIENCE

Dining aboard Atlas Adventurer is designed as a journey in itself. With seven distinct dining venues, guests enjoy greater variety, flexibility, and personalization throughout their voyage, from refined, full-service dining to relaxed, open-air options and in-suite service available at any hour.

This expanded culinary offering reflects Atlas’ evolving guest profile and longer, more diverse itineraries, while preserving the intimacy, quality, and thoughtful execution that define the luxury expedition experience.

WELLNESS AT SEA,
ELEVATED

Wellness aboard Atlas Adventurer is reimagined with expanded facilities that support balance, restoration, and vitality throughout the journey. Guests will enjoy a fully expanded fitness and spa wellness center, thoughtfully designed with state-of-the-art equipment,

treatment rooms, and serene spaces dedicated to relaxation and renewal. On deck, outdoor leisure and wellness are elevated with an inviting pool and two whirlpools, providing inviting spaces to unwind, socialize, or simply take in the ever-changing vistas of the surrounding seascape.

PURPOSE-BUILT FOR
IMMERSIVE EXPLORATION

True to Atlas’ expedition spirit, Atlas Adventurer is equipped to deliver extraordinary access and engagement with the world. These capabilities ensure that guests experience destinations not from a distance, but up close, actively, and meaningfully.

- A fleet of expedition Zodiacs for shore landings and wildlife exploration.

- A dedicated marina platform enabling swimming, kayaking, and water sports directly from the yacht when conditions permit.
- Two luxury motorboats elegantly designed to provide seamless, small group transfers ashore, as well as scenic coastal excursions. These motorboats complement the aft marina platform, allowing guests to engage with the water in comfort and style.

A NEXT-GENERATION
VESSEL BUILT FOR THE
FUTURE OF EXPLORATION

This new class of vessel is purpose-built to expand Atlas’ destination footprint, unlocking regions that demand both sophistication and operational capability. Beginning in late 2028, Atlas Adventurer will explore new and extraordinary destinations across:

Asia, including: Japan, South Korea, China, Vietnam, Indonesia, Thailand, and the Philippines

Africa, including: Seychelles, Madagascar, Kenya, and South Africa

These regions call for a vessel that can navigate varied climates, access diverse ports, and deliver elevated comfort over longer itineraries, while remaining sensitive to the environments and cultures encountered. This next-generation eco-friendly vessel makes that possible.

A NATURAL EVOLUTION
OF THE ATLAS BRAND

This launch is a seamless extension of Atlas’ recent brand elevation. As we refine our identity to reflect the experiences our guests already cherish, intimate boutique hospitality, curated luxury, and immersive engagement with the world, Atlas Adventurer becomes the physical embodiment of that promise.

It reflects our confidence in the brand’s direction and the clarity of our ambition.

This is not growth for growth’s sake; it is intentional expansion, designed to meet the expectations of modern luxury travelers while continuing to redefine what expedition cruising can be, fostering deeper connections with destinations, experiences, and fellow travelers.

REDEFINING LUXURY
EXPEDITION CRUISING

With the introduction of Atlas Adventurer, Atlas Ocean Voyages sets a new course; one guided by innovation, design, and a deeper connection to the world.

- More destinations.
- More space.
- More possibility.

All delivered through the lens of Atlas’ defining belief: that true luxury is not measured by excess, but by thoughtfully curated experiences, meaningful connections, and moments that linger long after the voyage ends.

This is the next chapter of Atlas Ocean Voyages. And it is only the beginning.

SPECIFICATIONS
& FEATURES

YachtName: Atlas Adventurer
YachtClass: Atlas-class
Launch Year: 2028
Flag: Portugal

Hull: Ice Class 1B (Polar Category C)
Guest Capacity: 400 guests
Crew Capacity: 274

DIMENSIONS

Length Overall(LOA): 690 ft (210m)
Beam (Max): 82 ft (25m)
Draft (Max): 21.7 ft (6.6m)

Air Draft (Max): 225 ft (68.5m)
Gross Tonnage: 26,000 GRT

PERFORMANCE

Design Speed: 16 knots
Sailing Speed: 14 knots
Engines: Wärtsilä
Sails: A triple-masted carbon rig carrying precision-engineered carbon fiber sails

Propulsion: Dual-fuel engines and electric-hybrid propulsion with a large 9-megawatt marine battery system enable pure sail-assisted, acoustically invisible exploration.
